

Ethiopia Official Languages Amharic

LL Leslie

The Oxford Handbook of Ethiopian Languages Ronny Meyer, Bedilu Wakjira, Zelealem Leyew, 2023-05-04 This handbook provides a comprehensive account of the languages spoken in Ethiopia, exploring both their structures and features and their function and use in society. The first part of the volume provides background and general information relating to Ethiopian languages, including their demographic distribution and classification, language policy, scripts and writing, and language endangerment. Subsequent parts are dedicated to the four major language families in Ethiopia - Cushitic, Ethiosemitic, Nilo-Saharan, and Omotic - and contain studies of individual languages, with an initial introductory overview chapter in each part. Both major and less-documented languages are included, ranging from Amharic and Oromo to Zay, Gawwada, and Yemsa. The final part explores languages that are outside of those four families, namely Ethiopian Sign Language, Ethiopian English, and Arabic. With its international team of senior researchers and junior scholars, The Oxford Handbook of Ethiopian Languages will appeal to anyone interested in the languages of the region and in African linguistics more broadly.

Ethiopian Americans W. Gabriel Selassie I, 2025-01-09 Explore the history, culture, and lived experiences of Ethiopian Americans in the USA. Ethiopia, in East Africa, is the second most populated country in Africa, home to over 125 million inhabitants. For centuries, many Ethiopians had little exposure to the outside world, and even less to Americans. However, that started to change in the 1970s. In 1974, a military-backed government deposed Emperor Haile Selassie I, and many Ethiopians emigrated to the West. Today, large populations of Ethiopian Americans live in cities such as Washington, D.C., Los Angeles, and Minneapolis. This book offers an accessible and detailed glimpse into their everyday lives. It includes an overview of Ethiopian art, media, and cuisine, biographies of accomplished Ethiopian Americans, and a revealing look into the ongoing struggle for equality and representation that many Ethiopian Americans experience.

The Semitic Languages Stefan Weninger, 2011-12-23 The handbook The Semitic Languages offers a comprehensive reference tool for Semitic Linguistics in its broad sense. It is not restricted to comparative Grammar, although it covers also comparative aspects, including classification. By comprising a chapter on typology and sections with sociolinguistic focus and language contact, the conception of the book aims at a rather complete, unbiased description of the state of the art in Semitics. Articles on individual languages and dialects give basic facts as location, numbers of speakers, scripts, numbers of extant texts and their nature, attestation where appropriate, and salient features of the grammar and lexicon of the

respective variety. The handbook is the most comprehensive treatment of the Semitic language family since many decades.

Prosecution of Core Crimes in Ethiopia Tadesse Simie Metekia, 2021-03-08 Tadesse Simie Metekia's *Prosecution of Core Crimes in Ethiopia* offers an in-depth analysis of core crimes trials in Ethiopia within the broader frame of international criminal law. This book is a result of an unprecedented data collection, a meticulous exploration of relevant national and international norms and case laws, as well as a full engagement with the existing literature on the domestic application of international criminal law. A comparative examination of the actual trials and the manner in which Ethiopia set prosecutions of core crimes in motion, Metekia's book is a significant achievement in terms of furthering academic knowledge and of contributing to the wider policy debates on international criminal justice and on the role of states in prosecuting atrocities.

Natural Language Processing of Semitic Languages Imed Zitouni, 2014-04-22 Research in Natural Language Processing (NLP) has rapidly advanced in recent years, resulting in exciting algorithms for sophisticated processing of text and speech in various languages. Much of this work focuses on English; in this book we address another group of interesting and challenging languages for NLP research: the Semitic languages. The Semitic group of languages includes Arabic (206 million native speakers), Amharic (27 million), Hebrew (7 million), Tigrinya (6.7 million), Syriac (1 million) and Maltese (419 thousand). Semitic languages exhibit unique morphological processes, challenging syntactic constructions and various other phenomena that are less prevalent in other natural languages. These challenges call for unique solutions, many of which are described in this book. The 13 chapters presented in this book bring together leading scientists from several universities and research institutes worldwide. While this book devotes some attention to cutting-edge algorithms and techniques, its primary purpose is a thorough explication of best practices in the field. Furthermore, every chapter describes how the techniques discussed apply to Semitic languages. The book covers both statistical approaches to NLP, which are dominant across various applications nowadays and the more traditional, rule-based approaches, that were proven useful for several other application domains. We hope that this book will provide a one-stop-shop" for all the requisite background and practical advice when building NLP applications for Semitic languages.

Language in Ethiopia Marvin Lionel Bender, 1976 This comprehensive study is the result of research by an interdisciplinary team of international scholars, all with a particular interest in Ethiopia. The first part of the book contains an important classification of Ethiopian languages, looks at their distribution and studies some special language situations. The second part describes the official status of languages, the effects of migrations, urbanization and education, and discusses the spread of Amharic and patterns of bilingualism. The third part analyses in detail the organization of language teaching and teacher training in Ethiopia.

Ethiopian Register, 1996

Language Use in Ethiopia from a Network Perspective Ronny Meyer, Renate Richter, 2003 This publication describes the

usage of languages in the multilingual society of Ethiopia. It is based on empirical studies conducted in nine states of the Federal Democratic Republic of Ethiopia in 1997 and 1998. A research team of German and Ethiopian scholars surveyed about 3,500 high school students from 35 Ethiopian towns regarding their language behaviour. The data on the distribution of mother tongues and second languages are published here for the first time and are representative for a typical Ethiopian town. These data outline the development of multilingualism over three generations (students/parents/grandparents) and elucidate factors which promote the spread of multilingualism. The frame for the representation and explanation of the data is an adapted model of the social network theory.

Language ,1978

Journal of Ethiopian languages and literature ,2012-06-02

Ethiopia Elizabeth Berg,2000 An introduction to the geography, history, government, lifestyles, culture, and current issues of Ethiopia.

Ethiopian Journeys Paul B. Henze,2001 Ethiopia has always held a special fascination for travelers going back to antiquity, but until the early part of the twen-tieth century, much of the country was inaccessible to all but the hardest adventurers. In this exciting book, Paul Henze evokes the last years of what some might call a golden age, the decade before the turmoil that engulfed Ethiopia in 1974. Henze provides a mosaic of Ethiopia's culture as he examines its peoples, languages, and religions. Out of print for almost twenty-five years, this volume documents a period of Ethiopian history that was highly distorted by the communist regime of the 1970s and 1980s. This second edition has a new introduction and includes new images reflecting on Ethiopia's recent past and capturing the traditions and peoples of this ancient land. Paul B. Henze has traveled extensively throughout Ethiopia and has written hundreds of articles and several books on Ethiopian history, politics, and culture. A veteran member of the U.S. Foreign Service, he was first secretary of the U.S. Embassy in Ethiopia during the period covered by this book. Henze is a life member of the Institute of Ethiopian Studies and during his frequent visits to Ethiopia he continues his research.

Ethiopia Observer ,1989 Includes special issues.

Benn's Press Directory ,1982

Language Problems of Developing Nations Joshua A. Fishman,1968

The African Origin of Modern Judaism José V. Malcioln,1996 This book has a two-fold purpose; to demonstrate to Black and White Hebrews and Jews their undeniable kinship and to encourage a better relationship among Israelites through understanding of that kinship. In this seminal work, Dr. Malcioln attempts to answer the fundamental question of the relationship between Africa and the Hebrews or Jews. This historical study will show the contributions made before and after certain periods of Jewish dispersion from Africa.

Proceedings of the First United States Conference on Ethiopian Studies, Michigan State University, 2-5 May, 1973

Harold G. Marcus, John T. Hinnant, 1975

Language and Education in Eritrea Chefena Hailemariam, 2002 In multilingual societies, school is an arena in which three potentially conflicting dimensions of language policy meet: language as a right, language as a resource, and language as a problem. School is an instrument in the implementation of a country's official language policy, and also an institution in which about language confront the actual behavior of teachers and pupils about language. Consisting of different ethnolinguistic groups, Eritrea is an intriguing example of a multilingual country facing complex interdependencies of language, social mobility, ethnicity, and nationalism. It is special in the sense that, unlike many other postcolonial African countries, Eritrea has decided on a policy of mother-tongue education.

Emergence, Expansion and Decline of Patrimonial Bureaucracy in Ethiopia, 1907-1974 Haile Kiros Asmerom, 1978

Benn's Media Directory, 1991
