Sacral Grooves, Limbo Gateways Keith Cartwright,2013 “We're seeing people that we didn't know exist,” the director of FEMA acknowledged in the wake of Hurricane Katrina. *Sacral Grooves, Limbo Gateways* offers a corrective to some of America's institutionalized invisibilities by delving into the submerged networks of ritual performance, writing, intercultural history, and migration that have linked the coastal U.S. South with the Caribbean and the wider Atlantic world. This interdisciplinary study slips beneath the bar of rigid national and literary periods, embarking upon deeper—more rhythmic and embodied—signatures of time. It swings low through ecologies and symbolic orders of creolized space. And it reappraises pluralistic modes of knowledge, kinship, and authority that have sustained vital forms of agency (such as jazz) amid abysses of racialized trauma. Drawing from Haitian Vodou and New Orleanian Voudou and from Cuban and South Floridian Santería, as well as from Afro-Baptist (Caribbean, Geechee, and Bahamian) models of encounters with otherness, this book reemplaces deep-southern texts within the counterclockwise ring-stepping of a long Afro-Atlantic modernity. Turning to an orphan girl's West African initiation tale to follow a remarkably traveled body of feminine rites and writing (in works by Paule Marshall, Zora Neale Hurston, Lydia Cabrera, William Faulkner, James Weldon Johnson, and LeAnne Howe, among others), Cartwright argues that only in holistic form, emergent from gulfs of cross-cultural witness, can literary and humanistic authority find legitimacy. Without such grounding, he contends, our educational institutions blind and even poison students, bringing them to “swallow lye,” like the grandson of Phoenix Jackson in Eudora Welty's “A Worn Path.” Here, literary study may open pathways to alternative medicines—fetched by tenacious avatars like Phoenix (or an orphan Kumba or a shell-shaking Turtle)—to remedy the lies our partial histories have made us swallow.

The Los Angeles Central Library Kenneth A. Breisch,2016-12-21 In the most comprehensive investigation of the Los Angeles Public Library's early history and architectural genesis ever undertaken, Kenneth Breisch chronicles the institution's first six decades, from its founding as a private library association in 1872 through the completion of the iconic Central Library building in 1933. During this time, the library evolved from an elite organization ensconced in two rooms in downtown LA into one of the largest public library systems in the United States—with architect Bertram Grosvenor Goodhue's building, a beloved LA landmark, as its centerpiece. Goodhue developed a new style, fully integrating the building's sculptural and epigraphic program with its architectural forms to express a complex iconography. Working closely with sculptor Lee Oskar Lawrie and philosopher Hartley Burr Alexander, he created a great civic monument that, combined with the library's murals, embodies an overarching theme: the light of learning. "A building should read like a book, from its title entrance to its alley colophon," wrote Alexander—a narrative approach to design that serves as a key to understanding Goodhue's architectural gem. Breisch draws on a wealth of primary source material to tell the story of one of the most important American buildings of the twentieth century and illuminates the formation of an indispensable modern public institution: the American public library.
