**The Man Who Loved Books Too Much** Allison Hoover Bartlett, 2009-09-17 In the tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed bibliodick (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess the books they love.

**The Groaning Shelf** Pradeep Sebastian, 2012-03-12 Notes from a bibliophile on the lure of rare and first editions, the beauty of dust jackets, the thrill of browsing in antiquarian bookshops, the bibliomania of book thieves, movies about books, and the inner life of a reader. *The Groaning Shelf* is not so much a book about books as a book about books about books. These little essays capture the drama of bookish obsession, the joys and snares of the bookish life and the pleasures of bibliophily.

How Literary Worlds Are Shaped Bo Pettersson,2016-09-12 Literary studies still lack an extensive comparative analysis of different kinds of literature, including ancient and non-Western. How Literary Worlds Are Shaped. A Comparative Poetics of Literary Imagination aims to provide such a study. Literature, it claims, is based on individual and shared human imagination, which creates literary worlds that blend the real and the fantastic, mimesis and genre, often modulated by different kinds of unreliability. The main building blocks of literary worlds are their oral, visual and written modes and three themes: challenge, perception and relation. They are blended and inflected in different ways by combinations of narratives and figures, indirection, thwarted aspirations, meta-usages, hypothetical action as well as hierarchies and blends of genres and text types. Moreover, literary worlds are not only constructed by humans but also shape their lives and reinforce their sense of wonder. Finally, ten reasons are given in order to show how this comparative view can be of use in literary studies. In sum, How Literary Worlds Are Shaped is the first study to present a wide-ranging and detailed comparative account of the makings of literary worlds.

Is this because we are in a time of textual change? Given that young people always seem to be in the vanguard of technological change, questions about what and how they read are the subject of intense debate. *Children as Readers in Children's Literature* explores these questions by looking at the literature that is written for children and young people to see what it tells us about them as readers. The contributors to this book are a group of distinguished children's literature scholars, literacy and media specialists who contemplate the multiple images of children as readers and how they reflect the power and purpose of texts and literacy. Contributors to this wide-ranging text consider: How books shape the readers we become Cognitive and affective responses to representation of books and reading The relationship between love-stories and reading as a cultural activity Reading as 'Protection and Enlightenment' Picturebooks as stage sets for acts of reading Readers' perceptions of a writer This portrayal of books and reading also reveals adults' beliefs about childhood and literacy and how they are changing. It is a theme of crucial significance in the shaping of future generations of readers given these beliefs influence not only ideas about the teaching of literature but also about the role of digital technologies. This text is a must-read for any individual interested in the importance of keeping literature alive through reading.
