The New Abolition Gary J. Dorrien, 2015-01-01 The black social gospel emerged from the trauma of Reconstruction to ask what a new abolition would require in American society. It became an important tradition of religious thought and resistance, helping to create an alternative public sphere of excluded voices and providing the intellectual underpinnings of the civil rights movement. This tradition has been seriously overlooked, despite its immense legacy. In this groundbreaking work, Gary Dorrien describes the early history of the black social gospel from its nineteenth-century founding to its close association in the twentieth century with W. E. B. Du Bois. He offers a new perspective on modern Christianity and the civil rights era by delineating the tradition of social justice theology and activism that led to Martin Luther King Jr.

Unleashed Peter J. Bellini, 2018-10-31 The ministry of casting out demons is either entirely dismissed on one hand or misused and abused on the other. A closed-system natural worldview utterly rejects the notion of a spirit world with spirit

beings. To the other extreme, some shortsighted deliverance ministries reject the validity of the health professions and identify every problem in the life of the believer as demonic. The theology of these ministries fails to account for the power of the cross and its daily application in the life of the believer as the normal way in which God delivers from sin and evil. All challenges in the life of the believer do not necessitate a deliverance session. *Unleashed!* is a book that offers a balanced perspective on these matters, including an instrument that can be used to assist in discerning the probable need for deliverance. The C1-13 instrument is revolutionary, transcending the usual inventories by applying variables that are key factors to differentiating degrees of demonic influence. The instrument is also distinct due to its integrative approach that cross-references the work of other professional fields to arrive at a comprehensive picture of the problem and thus a more extensive and effective treatment.
