Thucydides Between History and Literature Antonis Tsakmakis,Melina Tamiolaki,2013-03-01 This volume brings together scholars from various areas (history, philology, linguistics, history of political ideas) and attempts a fresh survey of current trends in the analysis of Thucydides' historical narrative. Individual contributions range from a general outlook of Thucydides' historical and historiographical concepts to detailed analysis of narrative strategies, linguistic features and stylistic devices. Special attention is given to questions such as the representation of character, the role of individuals, the interaction between leaders and masses in Athenian democracy, the construction of speeches in Thucydides' work, etc. The analysis of language, style and narrative properties is related to the construction of meaning according to current standards of textual analysis and interpretation.

Archaeology on the Apulian - Lucanian Border Alastair Small,Carola Small,2022-05-26 The broad valley of the Bradano river and its tributary, the Basentello, separates the Apennine mountains in Lucania from the limestone plateau of the Murge in Apulia in southeast Italy. This book aims to explain how the pattern of settlement and land use changed in the valley over the whole period from the Neolithic to the late medieval.
