Leonardo da Vinci Filippo Camerota, Antonio Natali, Maurizio Seracini, Leonardo (da Vinci), 2006 Scientific analyses of the perspective study (Uffizi drawing 436 E) for the altarpiece Adoration of the Magi, which Leonardo was commissioned to paint in 1481 for the church of San Donato a Scopeto, as well as the panel itself.

Disaster in the Early Modern World Ovanes Akopyan, David Rosenthal, 2023-11-17 How did early modern societies think about disasters, such as earthquakes or floods? How did they represent disaster, and how did they intervene to mitigate its destructive effects? This collection showcases the breadth of new work on the period ca. 1300-1750. Covering topics that range from new thinking about risk and securitisation to the protection of dikes from shipworm, and with a geography that extends from Europe to Spanish America, the volume places early modern disaster studies squarely at the intersection of intellectual, cultural and socio-economic history. This period witnessed fresh speculation on nature, the diffusion of disaster narratives and imagery and unprecedented attempts to control the physical world. The book will be essential to specialists and students of environmental history and disaster, as well as general readers who seek to discover how pre-industrial societies addressed some of the same foundational issues we grapple with today.

Verrocchio Andrew Butterfield, 2021-09-28 A comprehensive survey of the work of this most influential Florentine artist and teacher Andrea del Verrocchio (c. 1435-1488) was one of the most versatile and inventive artists of the Italian Renaissance. He created art across media, from his spectacular sculptures and paintings to his work in goldsmithing, architecture, and engineering. His expressive, confident drawings provide a key point of contact between sculpture and painting. He led a vibrant workshop where he taught young artists who later became some of the greatest painters of the period, including Leonardo da Vinci, Sandro Botticelli, Lorenzo di Credi, and Domenico Ghirlandaio. This beautifully illustrated book presents a comprehensive survey of Verrocchio's art, spanning his entire career and featuring some fifty sculptures, paintings, and drawings, in addition to works he created with his students. Through incisive scholarly essays, in-depth catalog entries, and breathtaking illustrations, this volume draws on the latest research in art history to show why Verrocchio was one of the most innovative and influential of all Florentine artists. Unfinished Kelly Baum,Andrea Bayer,Sheena Wagstaff,2016-03-01 This groundbreaking book explores the evolving concept of unfinishedness as essential to understanding art movements from the Renaissance to the present day. Unfinished features more than 200 works, created in a variety of media, by artists ranging from Leonardo, Titian, Rembrandt, Turner, and Cézanne to Picasso, Warhol, Twombly, Freud, Richter, and Nauman. What unites these works, across centuries and media, is that each one displays some aspect of being unfinished. Essays and case studies by major contemporary scholars address this key concept from the perspective of both the creator and the viewer, probing the impact that this long artistic trajectory—which can be traced back to the first century—has had on modern and contemporary art. The book investigates the degrees to which instances of incompleteness were accidental or intentional experimental or conceptual. Also included are illuminating interviews with contemporary artists, including Tuymans, Celmins, and Marden, and parallel considerations of the unfinished in literature and film. The result is a multidisciplinary approach and thought-provoking analysis that provide valuable insight into the making, meaning, and critical reception of the unfinished in art.

Filippino Lippi Jonathan K. Nelson,2022-09-26 Offering particular insight into Filippino Lippi's artistic problem-solving, an innovative look at the Renaissance master. The first focused study of Filippino Lippi in a generation, and the first in English in over eighty years, this book presents a new understanding of the Renaissance master-artist. Celebrated as "ingenious" by Vasari in 1550, Filippino was highly praised and influential, then fell out of favor and was forgotten for centuries. He was rediscovered by the poet Swinburne, who in 1868 celebrated the painter's "inventive enjoyment and indefatigable fancy." In a similar spirit, this volume explores Filippino's creativity in solving artistic problems. If a Roman cardinal requested a classically inspired work or a Florentine humanist wanted to dazzle observers with his antiquarian interests, Filippino had the sensitivity to understand these diverse needs and express them with highly original solutions.
