**Picture-Perfect Science Lessons** Karen Rohrich Ansberry,Emily Morgan,2010 How do you improve upon perfection? For years, new and experienced elementary school teachers alike have extolled the virtues of Picture-Perfect Science Lessons--the expertly combined appeal of children's picture books with standards-based science content. The award-winning, bestselling book presents ready-to-teach lessons, complete with student pages and assessments, that use high-quality fiction and nonfiction picture books to guide hands-on science inquiry. This newly revised and expanded 2nd edition of Picture-

Perfect Science Lessons manages to surpass the original. Classroom veterans Karen Ansberry and Emily Morgan, who also coach teachers through nationwide workshops, know elementary educators are usually crunched for science instructional time and could often use refresher explanations of scientific concepts. So the authors added comprehensive background notes to each chapter and included new reading strategies. They still show you exactly how to combine science and reading in a natural way with classroom-tested lessons in physical science, life science, and Earth and space science. And now they offer five brand-new lessons--Batteries Included, The Secrets of Flight, Down the Drain, If I Built a Car, and Bugs!--bringing the total to 20. Picture-Perfect Science Lessons draws on such diverse--and engaging--books as Dr. Xargle's Book of Earth Hounds, A House for Hermit Crab, Rice Is Life, Oil Spill!, Sheep in a Jeep, The Perfect Pet, and Weird Friends: Unlikely Allies in the Animal Kingdom. As a result, both reluctant scientists and struggling readers will quickly find themselves absorbed in scientific discovery. You'll love how effective this book is, and your students will love learning about science.

**1,000 Books to Read Before You Die** James Mustich, 2018-10-02 "The ultimate literary bucket list." —THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that's as compulsively readable, entertaining, surprising, and enlightening as the 1,000-plus titles it recommends. Covering fiction, poetry, science and science fiction, memoir, travel writing, biography, children's books, history, and more, 1,000 Books to Read Before You Die ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation, You have to read this. But it's not a proscriptive list of the "great works"—rather, it's a celebration of the glorious mosaic that is our literary heritage. Flip it open to any page and be transfixed by a fresh take on a very favorite book. Or come across a title you always meant to read and never got around to. Or, like browsing in the best kind of bookshop, stumble on a completely unknown author and work, and feel that tingle of discovery. There are classics, of course, and unexpected treasures, too. Lists to help pick and choose, like Offbeat Escapes, or A Long Climb, but What a View. And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and The Road next to Robert McCloskey and Make Way for Ducklings, Alice Walker next to Izaak Walton. There are nuts and bolts, too—best editions to read, other books by the author, "if you like this, you'll like that" recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned—a life-changing list for a lifetime of reading. "948 pages later, you still want more!" —THE WASHINGTON POST
