General Music Carlos R. Abril, Brent M. Gault, 2022 General Music: Dimensions of Practice is a practical guide for music teachers and teaching artists who strive to teach music holistically. The book begins by framing general music as a holistic music education that is comprehensive, meaningful, and relevant to diverse learners in school and community settings. It is followed by chapters that are organized into one of four dimensions of music practice: performing, connecting, creating, and responding. Chapter authors share creative and innovative teaching ideas, for both elementary and secondary school students, that focus on a wide range of topics, including: songwriting, composing, improvising, singing, moving, playing, listening, analyzing, contextualizing, and connecting. Each chapter provides (a) a rationale for a given area of music study, establishing its importance and relevance; (b) a research or theoretical background, to inform and guide practice; and (c) a pedagogical model or framework illustrated through lesson ideas, curriculum units, or vignettes. The ideas in this book seek to inspire and guide teachers as they build comprehensive music programs that are informed by students and communities.
