Apes and Angels Richard Edward Connell,2021-11-05 In Apes and Angels, Richard Edward Connell presents a thought-provoking exploration of the intricate dynamics between humanity and evolution. This novel, set against a backdrop of societal evolution, employs a satirical tone, blending elements of speculative fiction with an incisive critique of human nature.

Through vivid characterizations and sharp dialogue, Connell artfully interrogates themes of civilization, morality, and the primordial instincts that lie beneath the veneer of societal progress, revealing the disconcerting possibilities inherent in our evolutionary lineage. Connell, renowned for his literary prowess and keen psychological insight, draws upon his experiences and the socio-political landscape of his time to craft this compelling narrative. His background in journalism and an acute awareness of contemporary philosophical debates infuse the text with depth and urgency, making it both a product of its time and a timeless reflection on human identity. Connell's keen observations about societal transformation resonate in today's discourse on ethics and progress, positioning him as a significant voice in early 20th-century literature. Readers seeking an engaging narrative that prompts reflection on the very essence of humanity will find *Apes and Angels* an invaluable addition to their literary repertoire. Horror Dogs Brian Patrick Duggan,2023-08-07 How did beloved movie dogs become man-killers like Cujo and his cinematic pack-mates? For the first time, here is the fascinating history of canines in horror movies and why our best friends were (and are still) painted as malevolent. Stretching back into Classical mythology, treacherous hounds are found only sporadically in art and literature until the appearance of cinema's first horror dog, Sherlock Holmes' Hound of the Baskervilles. The story intensifies through World War II's K-9 Corps to the 1970s animal horror films, which broke social taboos about the good dog on screen and deliberately vilified certain breeds--sometimes even fluffy lapdogs. With behind-the-scenes insights from writers, directors, actors, and dog trainers, here are the flickering hounds of silent films through talkies and Technicolor, to the latest computer-generated brutes--the supernatural, rabid, laboratory-made, alien, feral, and trained

killers. Cave Canem (Beware the Dog)--or as one seminal film warned, They're not pets anymore.
