Elaine King, Caroline Waddington

Music and Empathy Elaine King, Caroline Waddington, 2017-03-16 In recent years, empathy has received considerable research attention as a means of understanding a range of psychological phenomena, and it is fast drawing attention within the fields of music psychology and music education. This volume seeks to promote and stimulate further research in music and empathy, with contributions from many of the leading scholars in the fields of music psychology, neuroscience, music philosophy and education. It exposes current developmental, cognitive, social and philosophical perspectives on research in music and empathy, and considers the notion in relation to our engagement with different types of music and media. Following a Prologue, the volume presents twelve chapters organised into two main areas of enquiry. The first section, entitled 'Empathy and Musical Engagement', explores empathy in music education and therapy settings, and provides social, cognitive and philosophical perspectives about empathy in relation to our interaction with music. The second section, entitled 'Empathy in Performing Together', provides insights into the role of empathy across non-Western, classical, jazz and popular performance domains. This book will be of interest to music educators, musicologists, performers and practitioners, as well as scholars from other disciplines with an interest in empathy research. Chapter 5 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Step One: Save the World - The Journey of a Water Protector DJ Rankin, 2017-09-11 This is a cookbook. This is an adventure novel. This is a love story. This is a tale of survival. This is a spiritual journey. This is a catalog of the oppressions and destructions perpetrated by the machine of mankind. This is a handbook on standing up to the tyranny enacted by a corrupt government through the mechanism of fear. This is a recruitment manual for a global movement of resistance fueled by love. We are winning. It is time to stand up. Enough is enough. Do what feels right. Last winter I was called to Standing Rock to protect the water and my entire world was flipped upside down. I lived in the most amazing, love based, frozen tipi utopia, where I connected with the greatest human beings imaginable as I connected to myself and the universe through the ceremonies of the Lakota people, and through science. I was simultaneously exposed to not only the long list of evils unleashed on our species and planet in the name of money, but witnessed it first hand through a cloud of tear gas and militarized police. It was the greatest experience ever. I mean, I was grilling steaks in a forty below lightening blizzard. You

should come over for dinner sometime.

Ode to a Tenor Titan Bill Milkowski, 2021-10-01 After John Coltrane, there was no more revered and profoundly influential saxophonist on the planet than Michael Brecker. For those coming of age in the 1970s, during that transitional decade when the boundaries between rock and jazz had begun to blur, Brecker stood as a transcendent figure. He was their Trane. Ode to a Tenor Titan follows Michael's story from growing up in Philadelphia, finding his tenor sax voice during his brief stint at Indiana University, making his move to New York City in 1969 and taking the Big Apple by storm through the sheer power of his monstrous chops on the instrument. A commanding voice in jazz for four decades, Brecker possessed peerless technique (a byproduct of his remarkable work ethic and relentless woodshedding) and an uncanny ability to fit into every musical situation he encountered, whether it was as a ubiquitous studio musician (more than nine hundred sessions) for such pop stars as Paul Simon, James Taylor, Bruce Springsteen, Todd Rundgren, Chaka Khan, and Steely Dan; playing with seminal fusion bands like Dreams, Billy Cobham, and the Brecker Brothers; or collaborating with the likes of Frank Zappa, Charles Mingus, Pat Metheny, and Herbie Hancock. But his biggest triumphs came as a bandleader during the last twenty years of his career, when he produced some of the most challenging, inspired, and visionary modern jazz recordings of his time. A preternaturally gifted player whose facility seemed almost superhuman, he was also modest to a fault and universally beloved by fellow musicians. After coming through a dark decade of heroin addiction, he turned his life around and became a beacon for countless others to lead clean and sober lives. At the peak of his powers, he was struck down by a rare preleukemic blood disease that sidelined him for two and a half years. He got off a sick bed to make a heroic comeback with his swan song, Pilgrimage, which Pat Metheny called one of the great codas in modern music history and which earned him a posthumous Grammy Award in 2007. Michael Brecker was a player of tremendous heart and conviction as well a person of rare humility and kindness, and his story is one for the ages.

The Routledge Handbook of Mindshaping Tadeusz Wiesław Zawidzki, Rémi Tison, 2025-05-29 Of all species, human beings are uniquely capable of coordinating on long-term, large-scale cooperative projects with unfamiliar and genetically unrelated others. According to the mindshaping hypothesis, this relies on mechanisms and practices like imitation, pedagogy, normative cognition, and narrative self-constitution, which shape us into expert coordinators, without requiring time consuming and epistemically fraught attempts to read each other's minds. Mindshaping has been applied to many areas of inquiry, including game theory, shared agency, communication, the ontogeny of human cognition, the dissemination of scientific knowledge in popular media, mental illness, and the influence of social media technologies. The Routledge Handbook of Mindshaping is the first volume of its kind. Comprising 37 chapters by an international team of leading scholars, this Handbook is organised into seven sections: Mindshaping and coordination Mindshaping and cognitive psychology Mindshaping and normativity Mindshaping and epistemology Social and political dimensions of mindshaping

Nonhuman mindshaping Mindshaping applied Within these sections, key topics are addressed, including game theory, social signalling and shared agency, folk psychology, the emotions, language acquisition and memory, stereotyping and consciousness-raising, moral agency, self-knowledge, rationality, epistemic norms, primate sociality, human-elephant relations, artificial intelligence, mental illness and neurodiversity, aesthetic expression, and politics. An outstanding survey of a vibrant and emerging field, *The Routledge Handbook of Mindshaping* will be of great interest to those studying and researching philosophy of psychology, philosophy of cognitive science, philosophy of mind, and applied epistemology. It will also be of interest to those in related disciplines such as cognitive psychology, sociology, and anthropology.

Granularity: An Ontological Inquiry Into Justice and Holistic Education Şevket Benhür Oral, 2023-11-26 This book presents an original exploration of philosophical questions pertaining to the ways we grasp the Absolute by bringing together the Buddhist notion of interpermeation of all phenomena into contemporary strains of thought in continental philosophy. This text introduces an ontological concept, granularity, deploying it to probe questions concerning the intersection of ontology, ethics, and education. A wide range of issues in metaphysics are covered—including being, nothingness, unity, plurality, truth, change, transformation, subjectivity, contradiction, coherence, potentiality—from the perspective of thinkers such as Hegel, Heidegger, Badiou, Meillassoux, Malabou, Žižek, and Harman. The text deploys granularity in arguing for an ethics of unconditional hospitality within education. This volume is intended for students and researchers working in the areas of philosophy of education, philosophy of religion, and continental philosophy.

The Film and Media Creators' Guide to Music Vasco Hexel, 2018-10-10 Music plays an integral role in the experience of film, television, video games, and other media—yet for many directors, producers, and media creators, working with music can be a baffling and intimidating process. *The Film and Media Creators' Guide to Music* bridges the gap between musical professionals and the creators of film and other media projects, establishing a shared language while demystifying this collaborative journey. Organized with a modular chapter structure, the book covers fundamental topics including: Why (and when) to use music in a project How to talk about music Licensing existing music Commissioning original music Working with a composer Geared toward emerging and established creators alike, this book takes a practical approach to the process of finding the best music for all forms of moving image. *The Film and Media Creators' Guide to Music* offers hands-on advice for media creators, providing readers with the confidence to approach the planning, commissioning, creation, and placement of music in their projects with the awareness, understanding, and vocabulary that will enable them to be better collaborators and empowered storytellers. For students and professionals working across film and media, this book is the essential guide to using music creatively and effectively.

Activating Voices in Jazz History Anthony D.J. Branker, 2025-05-06 *Activating Voices in Jazz History: Students Broadening the Narrative* highlights the research of students who have been challenged to assess and interpret evidence found in

historical records and engage in field interviews with a diverse representation of jazz artists. This approach serves as a method for co-creating a living history of jazz. Drawing from the author's experience in teaching jazz historiography and recognizing that Jazz, African American music, and the music of the African diaspora offer unique perspectives rooted in culture and community, the book presents a culturally relevant view of the history of jazz. It also proposes a much-needed alternative methodology for teaching this subject. The author reflects on the issues that shape the framing of jazz history and discusses how using a dialogic approach can enable students to engage in critical conversations. The student-led interviews with artists focus on themes such as diversity and inclusion, gender equity, social justice, cultural identity and identification, what the word "jazz" represents, primitivism, reflections on pedagogy, the current state of jazz education, and the development of artistic voice and creative self-expression. This concise book will be a valuable resource for jazz educators, scholars, students, and enthusiasts alike.

Map to the Stars Jen Malone, 2015-07-14 Can one down-to-earth girl plus a very famous boy and a whole lot of paparazzi ever add up to a perfect Hollywood ending? Seventeen-year-old Annie Shelton isn't sure why her mom thinks moving to Hollywood will allow them to escape the drama of their small-time life in Georgia, but she's along for the ride. When Annie's mom snags a gig as makeup artist to a teen movie idol and finagles a spot for Annie to accompany her on his European promotional tour, Annie's pretty sure she'll be fangirling over architectural sights rather than teen heartthrob Graham Cabot. But then of course she actually meets him. As Graham and Annie fall for each other in the most romantic cities in the world, Annie realizes that this turn of events may not be quite as glamorous as she thought. Instead of red carpets and celebrity couple names, they are navigating a minefield of keeping secrets from Graham's fans, overprotective assistant, stage momager, and beefy bodyguard. And when the paparazzi make an appearance, Annie has to decide whether their love is worth the harsh glare of the flashbulb. Author Jen Malone draws on her real-life experiences as a movie studio publicist to bring you an insider peek at love, Hollywood-style. The Front K. Silem Mohammad,2009 Poetry. Flarf. Kenny Goldsmith said that K. Silem Mohammad is the Andy Warhol of contemporary poetry, acutely scraping the bottom of the cultural barrel with such prescience, precision, and sensitivity that we are forced to reevaluate the nature of the language engulfing us. Our first impulse is to flee, to deny its worth, to turn away from it, to write it off as a big joke; but as with Warhol's car crashes or electric chairs, we are equally entranced, entertained, and repulsed: we can't stop looking. This is important and beautiful work, but not in the way we've come to expect. It's a double-edged sword that Mohammad is holding against our necks, forcing us to look at ourselves in the blade's reflection with equal doses of swooning narcissism and white-knuckled fear. Bob Perelman understands Kasey's work through the chance operations with which he derives his vocabulary: Of those infinite monkeys chained to those infinite typewriters, which one actually came up with King Lear? At first it looks like one of those conundrums that'll never be solved. But with K. Silem Mohammad's THE FRONT we catch a glimpse of a method that just might move us in a fruitful direction. First, take all the language on the web--it's not infinity, but it's what we've got for the moment--then stand exposed to those howling social gales. If you want to know what it feels like to lose sovereignty, go to THE FRONT.
