**Bureaucratizing Islam** Ann Marie Wainscott, 2017-09-14 How have states in the Middle East and North Africa responded to the War on Terror? While much scholarship has focused on terrorism in the region, there is need for critical studies of Middle Eastern states' counter-terrorism policies. This book addresses that need by investigating Morocco's unique approach to counter-terrorism: the bureaucratization of religion. Morocco's strategy is unique in the degree to which it relies on reforms that seek to make the country's religious institutions into tools for rewarding loyalty and discouraging dissent from religious elites. Through these measures they have limited opposition through an enduring form of institutional control, accommodating some of the country's most virulent critics. This book will be of great use to researchers and scholars of Middle Eastern politics, and it will also appeal to those policymakers interested in security studies and counter-terrorism policies.

**Education Tools for Entrepreneurship** Marta Peris-Ortiz, Jaime Alonso Gómez, Francisco Vélez-Torres, Carlos Rueda-Armengot, 2015-12-16 This book examines education in entrepreneurship through an action-learning environment that uses educational innovation tools. It explores various education tools, technology tools and pedagogical methods being implemented into university curriculums around the world. Entrepreneurship in society is rapidly gaining popularity as entrepreneurial activities aimed to create social value are fundamental in the development of an innovative, sustainable economy. This notion has been encouraging universities to incorporate entrepreneurship-related competencies into the curriculums of almost all subjects. Thus, developing an action-learning environment with educational innovation tools, technology tools and pedagogical methods is becoming increasingly important to universities. Students must be fully prepared to face the many challenges in the world and to help develop an innovative and sustainable economy. Universities should therefore promote active learning through innovation so that students can become active participants in their learning. Featuring contributions and case studies from academics, researchers and practitioners from around the world, the book provides international perspective into entrepreneurship education and innovation.

**Anatomy and Physiology** Gary A. Thibodeau, 1987 This accurate and up-to-date introductory text on human form and function presents a large, complex body of scientific knowledge in an easily understood, conversational writing style. Focusing on concepts rather than just descriptions to help students unify information, the text uses a big picture theme of

body function and explains the body's homeostatic regulation. Many practical features and hundreds of full-color illustrations enhance text content, and critical thinking learning opportunities are integrated throughout. New illustrations, revised Career Choices boxes in each unit, and current topics including anthrax and the human genome project have been added to this edition.

**Branded!** Michael E. Conroy, 2007-06-01 Making responsible social and environmental choices has not always been a first priority for many corporations, but recent history has changed all that. Small but mighty NGOs, using 21st Century global communications, are nipping at the heels of corporations caught in unethical and irresponsible practices. NGO market campaigns are moving these companies toward the higher standard now demanded by their clients, their consumers, and

society as a whole. The lever that moves these giants is the risk of destroying their carefully built brands if they fail to recognize their moral liability and clean up their practices. **Branded!** outlines the ability of NGOs to affect corporate markets. It shows how the development of certification systems for corporate social and environmental practices has created some intriguing questions: Why are retail giants paying premiums for ethically-produced products and not overcharging their customers? How have NGOs gained such power and credibility? What are the challenges of these new modes of corporate accountability for both NGOs and corporations? What are the unexpected opportunities for newly accountable corporations? **Branded!** is a must-read book for corporate executives, NGOs and concerned consumers. It is rich with vignettes of firms, NGOs, campaigns, failures, successes, memorable personalities and hard-fought battles.

**Diagnostic Imaging of the Chest** Dag Wormanns,2019-11-18 Your one-stop source of complete imaging information for the evaluation of thoracic conditions and diseases in all modalities Due to the remarkable concentration of various vital organs that can be visualized in thoracic imaging, the region occupies a firm central place in the spectrum of diagnostic imaging. The book is based on the contents of the curriculum for thoracic imaging of the European Society of Radiology and covers the gamut of issues in thoracic imaging that radiologists are faced with in their daily clinical practice. Contents are divided into four main sections: fundamentals of diagnostic thoracic imaging, diseases of the chest and special findings, differential diagnostic considerations and incidental findings, and glossary. Key Features: Full coverage of all disease entities as they affect the lungs, airways, pleura, mediastinum, thorax wall and diaphragm, thoracic arteries and veins, and the heart All imaging modalities are covered in detail: projection radiography, fluoroscopy, ultrasound, CT, and MRI, as well as digital image postprocessing Subsections concentrate on the more critical findings, such as pulmonary nodules and cavitary lesions Special section on occupational pulmonary diseases Congenital malformations of the thorax, and much more **Diagnostic Imaging of the Chest** is an essential reference guide for radiologists, both in training and in practice.

**Global Rhinoplasty** Ashkan Ghavami,Sam Most,Nazim Cerkes,2023-03-22 A unique ethnocentric guide to rhinoplasty anatomy and techniques from globally renowned experts In order for a facial plastic surgeon to create a harmonious relationship between the face and nose, it's paramount to consider each patient's ethnicity and gender identity. Nasal anatomy varies widely in terms of proportion, thickness, size, and resilience and many of these differences are specific to ethnicity. Although rhinoplasty has been available for many decades, applying Caucasian rhinoplasty guidelines to Hispanic,

Middle Eastern, Black, and Asian patients increases the risk of adverse outcomes and the need for multiple or revision surgeries. *Global Rhinoplasty: A Multicultural Approach* edited by world-renowned facial plastic surgeons Ashkan Ghavami, Sam P. Most, and Nazim Cerkes fills a gap in the literature, providing in-depth coverage of non-Caucasian nasal anatomy and rhinoplasty approaches for each subtype. The textbook includes 39 chapters and is organized in five sections: Principles, Anatomical Considerations, Primary Rhinoplasty, Secondary Rhinoplasty, and Special Considerations. Seventeen chapters cover anatomical and surgical techniques specific to the skin and soft tissue, dorsum, nasal tip, and nostrils for each ethnic group. Each of the 16 rhinoplasty chapters features expert commentary from the editors. The text concludes with discussion of preservation rhinoplasty, the use of fillers for nonsurgical and revision surgeries, evaluating psychosocial factors in patients seeking rhinoplasty surgery, and the role of marketing and social media in global practice. Throughout the book, authors share firsthand insights on potential pitfalls and strategies to prevent complications. Key Highlights Contributions and clinical pearls from globally recognized experts In-depth analysis of ethnic variations in skin and nose anatomy and its impact on outcomes Primary, secondary, and nonsurgical rhinoplasty videos provide invaluable visual guidance High-quality case study operative photos and illustrations enhance understanding of anatomy, approaches, and outcomes This must-have resource will help facial plastic surgeons significantly improve pre-surgical, surgical, and postoperative phases of rhinoplasty in Hispanic, Middle Eastern, Black, and Asian patients.

**Neck Rejuvenation** Samuel Lin, Sumner Slavin, 2024-05-22 A comprehensive guide to neck rejuvenation techniques from multidisciplinary experts A lifetime of facial expression, elastosis, gravitational forces, and tissue atrophy have a significant impact on the appearance of the neck. As such, neck rejuvenation is one of the most commonly performed aesthetic surgical procedures in the world, with more than 160,000 performed in the U.S. alone in 2020. *Neck Rejuvenation: Surgical and Nonsurgical Techniques* edited by Samuel J. Lin and Sumner A. Slavin reflects many decades of surgical and patient management experience, with contributions from distinguished surgeons across three specialties and many countries. Successful rejuvenation of the neck and its supporting structures requires in-depth anatomical knowledge, solid comprehension of the aesthetic principles of the neck, mastery of surgical and nonsurgical approaches, and an understanding of patient goals. The book starts with a chapter summarizing major surgically relevant anatomical structures pertinent to rejuvenation of the neck and its supporting tissues. Throughout the subsequent 14 chapters, internationally renowned specialists present a full spectrum of patient-targeted treatments focused on restoring a youthful neck appearance. Key Highlights Cutting-edge surgical procedures utilized by leaders in plastic surgery, facial plastic surgery, and dermatology to improve neck contour and skin quality Nonsurgical solutions tailored to address each patient's unique issues, including

cosmeceuticals, lasers and energy-based devices, neuromodulators, dermal fillers, deoxycholic acid, and cryolipolysis  
Complication prevention and management strategies for hematoma, skin necrosis, infection, nerve injury, dystonia, and scars  
Advanced treatments for neck rejuvenation demonstrated in 13 intraoperative videos This unique resource provides seasoned and trainee aesthetic surgeons with the foundation to personalize surgical and nonsurgical approaches, thereby enhancing the ability to deliver optimal results while minimizing complications.
