Reading People Anne Bogel, 2017-09-19 If the viral BuzzFeed-style personality quizzes are any indication, we are collectively obsessed with the idea of defining and knowing ourselves and our unique place in the world. But what we're finding is this: knowing which Harry Potter character you are is easy, but actually knowing yourself isn't as simple as just checking a few boxes on an online quiz. For readers who long to dig deeper into what makes them uniquely them (and why that matters), popular blogger Anne Bogel has done the hard part--collecting, exploring, and explaining the most popular personality frameworks, such as Myers-Briggs, StrengthsFinder, Enneagram, and others. She explains to readers the life-changing insights that can be gained from each and shares specific, practical real-life applications across all facets of life, including love and marriage, productivity, parenting, the workplace, and spiritual life. In her friendly, relatable style, Bogel shares engaging personal stories that show firsthand how understanding personality can revolutionize the way we live, love, work, and pray.

Reading People Jo-Ellan Dimitrius, Wendy Patrick Mazzarella, 2008-09-02 NEW YORK TIMES BESTSELLER • “Your eyes will be opened as mine have been by these tips from America’s leading people-readers.”—Chris Matthews How can you “hear between the lines” to detect a lie? When is intuition the best guide to making important decisions? What are the tell-tale signs of romantic attraction? Jo-Ellan Dimitrius—America’s leading behavioral expert—shows us how to spot the critical clues

to a person's integrity, work habits, and sexual interests, and to interpret these signs with accuracy and precision. In this phenomenal guide—now revised and updated—Dimitrius shows us how to read a person like a book. By decoding the hidden messages in appearance, tone of voice, facial expression, and personal habits, she applies the secrets of her extraordinary courtroom success to the everyday situations we all face at work, at home, and in relationships. New material includes: • How to read people in the age of terror: what to watch for during air travel and trips abroad, and vital information regarding student behaviors in the Columbine High School and Virginia Tech shootings • What to look for on the Internet: how to decipher behavioral patterns found in and altered by e-mail, text and instant messaging, and on sites like MySpace • Facts on body language and health: how chronic illnesses such as Asperger syndrome and Parkinson's disease influence the way people are perceived, and essential tips on how to counter these misperceptions • Fascinating new case studies: how body-reading techniques impacted jury selection and verdicts in major trial battles, including the Enron case Whether your focus is friendship or marriage, career or family, romance or professional success, Reading People gives you the skills you need to make sound, swift decisions and reap the benefits of razor-sharp insight.

Read People Like a Book isn't a normal book on body language of facial expressions. How to Read People Like a Book Christopher Kingler, Have you ever wanted to know what a person really thinks of

you? Do you want to learn how to deal with different personality types? Are you tired of being made fun of by the first person who passes by because you are unable to read their intentions? This manual provides a cutting-edge distillation of the techniques developed over the centuries by politicians, advertisers, criminals and other masters of their own universe. When applied, they can help you analyse anyone. This will allow you to connect with any personality type you want, forging friendships and social bonds that will last a lifetime! The non-verbal component constitutes over 65% of overall communication. It is an indispensable skill in any situation or social class. You will learn how to: - Interpret the emotional states of the people around us. - Express your feelings and ideas more effectively. - Understanding the clues offered by choice of words. - Avoid misunderstandings. - Find out if a person is lying to you. - Seduce a person (male and female body language in courtship have unique codes). - Demonstrate greater assertiveness when interacting with others. - Substantially improve interpersonal relationships - Understand the subtle signals you are sending out and increase your emotional intelligence. You will find shortcuts to connect quickly and deeply with strangers. As you have probably already experienced in life the risk of misinterpreting the body language of others, or of sending incorrect and incongruent messages, is very high and can cause a lot of misunderstanding. Unlike other books, this manual offers a practical and profound knowledge of non-verbal communication with a modern approach, free from the mania of wanting to 'scam' others and interpret everything simplistically. Hiring the best employee, choosing a business partner or simply choosing a partner for life will be far easier after reading this manual. Reading people quickly, deciphering body language, detecting lies and understanding human nature is the best gift you can give yourself in order to improve any area of your life.
