**Choose the Right a Levels** Ray Le Tarouilly, 2024-09-06 The gap between a good career and a great career can be something as simple as choosing the right A levels. Why? Because the choices you make now could determine which university course, apprenticeship or job you can access in the future. With so much at stake, it can feel overwhelming or almost impossible to get right. Fully updated, this 2nd edition of Choose the Right A Levels will be your essential guide as you explore your options. Helping you make confident choices, it answers key questions such as: What does the course outline look like and how is it assessed? What will I need at GCSE to study the subject at A level and how does it compare to GCSE? What key skills does the subject draw on and develop? Which subjects are preferred or required for certain degree courses and careers? What subjects combine well together? Written by expert Careers Adviser Ray Le Tarouilly, this trusted guide will give you a solid foundation for future success. 'A thorough and comprehensive resource for exploring A level options and informing choices. I would highly recommend this invaluable book to students, parents and colleagues alike.' Ian McClary, former Head of Sixth Form, Bryanston School, Dorset

**Transitions from Vocational Qualifications to Higher Education** Pallavi Amitava Banerjee, Debra Myhill, 2019-10-07 This book explores the Business and Technology route into higher education and how students with these qualifications are often at a disadvantage compared to their peers at University. Strategies of intervention such as individual facing and system facing changes at universities are outlined to ensure more supportive learning.

**Design Education in the Anthropocene** Paul A. Rodgers, 2024-05-01 This volume examines emerging practice and research in design education rooted in the context of significant global issues. A diverse set of international contributors present novel design education research that seeks to make significant social, economic, cultural and environmental change.

Topics covered include fashion, sustainability, creativity, social justice, museum education, climate change, environmentalism, and empathy. The chapters draw a link between current research practice and theory and future challenges for the field. The book will be of interest to scholars working in communication design, graphic design, design research, and information design.

Policy and Politics in Global Primary English Janet Enever, 2018-06-14 Janet Enever explores the complex forces that shape national and local language education policymaking for the early introduction of English as a foreign language at primary and pre-primary levels worldwide. This is the first book of its kind demonstrating the extent to which English is now perceived as a prerequisite for participation in the global economy, reflecting the rapid development of early start English now exploding across Asia, Latin America, and other fast-growing economies. "This is a timely and important book. Professor Enever demonstrates comprehensive knowledge of primary English policy and practice in a range of countries and, from a sound theoretical framework, draws together evidence to show how policies are all too often guided by short-term political considerations rather than sound educational practice. Whilst critiquing inappropriate practice, she also analyses the conditions which have the potential to lead to quality - and equitable - English language programmes at the primary level." David Hayes, Department of Applied Linguistics, Brock University, Canada
