Cultural Pressures and Mental Health Challenges in Gen Z's Digital World Hassan, Viana, Singh, Amrik, 2025-11-10 The rise of influencer culture and constant digital connectivity has profoundly shaped how young people view themselves and the world around them. For Generation Z, growing up immersed in curated online realities has intensified pressures around identity, beauty, success, and authenticity, often leading to heightened anxiety, depression, and self-comparison. Understanding these dynamics is crucial for addressing the broader mental health challenges facing today's youth and for fostering healthier digital environments. Examining this intersection also sheds light on shifting cultural values and the long-term societal implications of living in a world mediated by social platforms. Cultural Pressures and Mental Health Challenges in Gen Z's Digital World explores the intersection of digital culture, influencer, media, and mental health among Generation Z. It reveals the hidden costs of constant connectivity from rising anxiety and depression to shifting cultural norms around authenticity, beauty, and success. Covering topics such as academic pressure, influencer marketing, and social media, this book is an excellent resource for educators, mental health professionals, researchers, academicians, and more.

**Recentring Tourism Geographies in the 'Asian Century'** Harnng Luh Sin, Mary Mostafanezhad, Joseph M. Cheer, 2022-04-19 This book considers what the transition into the Asian Century means for some of the most urgent issues in the world today, such as sustainable development, human rights, gender equality, and environmental change. The book critiques Anglo-Western centrism in tourism theory and calls on tourism scholars to make radical shifts toward more inclusive epistemology and praxis. From the British Century of the 1800s to the American Century of the 1900s to the contemporary Asian Century, tourism geographies are deeply entangled in broader shifts in geopolitical power. In the shadow of the COVID-19 pandemic, the significance of shifts in tourism geographies and the themes addressed in this volume are more urgent than ever. That the world faces increasing turmoil is abundantly clear. Yet, amidst the disruption to the everyday, it is hope and compassion, but also political-economic restructuring that is needed to reset the tourism industry in more sustainable, equitable, and ethical directions. In no uncertain terms, the pandemic has forever changed the tourism industry as the world once knew it. This book, therefore, sets out to collectively build on the momentum of the inclusive scholarship that Critical Tourism Studies-Asia Pacific is renowned for, while also asking readers to pause and reflect on the possibilities and challenges of tourism in a post-pandemic Asian Century. The chapters in this book were originally published

as a special issue of the journal, *Tourism Geographies*.
