Racing Odysseus Roger H. Martin,2023-11-15 The idea of reliving youth is a common fantasy, but who among us is actually courageous enough to try it? After surviving a deadly cancer against tremendous odds, college president Roger H. Martin did just that—he enrolled at St. John's College, the Great Books school in Annapolis, Maryland, as a sixty-one-year-old freshman. This engaging, often humorous memoir of his semester at St. John's tells of his journey of discovery as he falls in love again with Plato, Socrates, and Homer, improbably joins the college crew team, and negotiates friendships across generational divides. Along the way, Martin ponders one of the most pressing questions facing education today: do the liberal arts still have a role to play in a society that seems to value professional, vocational, and career training above all else? Elegantly weaving together the themes of the great works he reads with events that transpire on the water, in the coffee shop, and in the classroom, Martin finds that a liberal arts education may be more vital today than ever before. This is the moving story of a man who faces his fears, fully embraces his second chance, and in turn rediscovers the gifts of life and learning. The idea of reliving youth is a common fantasy, but who among us is actually courageous enough to try it? After surviving a deadly cancer against tremendous odds, college president Roger H. Martin did just that—he enrolled at St. John's College, the Great

Success in Navigating Your Student Research Experience Aaron M. Ellison,Manisha V. Patel,2022-09-05 This book is a complete guide for students on how to make the most of intensive, experiential research outside a college classroom. Engaging in research as an undergraduate can lead to successful and rewarding careers in science, technology, engineering, mathematics, and medicine (STEMM). Being successful in an undergraduate research experience benefits from the self-

awareness and planning, strategies and skills that Success in Navigating your Student Research Experience can help you build and develop. The first part of this book describes strategies and processes for finding, applying, and preparing for an undergraduate research experience that matches your own needs and interests. These strategies are useful for any student, but are particularly helpful for individuals who have been minoritized in STEMM or are the first in their family to attend college. The central part of the book presents the undergraduate research experience as a “three-legged stool” whose legs—research, education, and community—each have unique values in advancing your path in STEMM. The last part of the book illustrates the many options for continuing and expanding your path in research. These range from communicating results to colleagues to moving forward with graduate studies and careers in STEMM, in which you can become a mentor to the next generation of students. This book is the student’s companion to the authors’ book for mentors, “Success in Mentoring your Student Researchers: Moving STEMM Forward.”

Feed Your Face Jessica Wu,2011-02-01 Tired of wasting hundreds of dollars on expensive wrinkle creams, drying lotions, and zit-zappers that just don't work? Well listen up, ladies. To really get gorgeous, you've got to change the way you feed

your face. Cosmetics companies, women's magazines—heck, even most doctors—will swear that food doesn't affect the skin. But celebrity dermatologist Dr. Jessica Wu knows that's just not true. After years spent battling her own pimple-prone, problem skin (not to mention caring for some of Hollywood's most famous faces), she's learned that what you eat has everything to do with the condition of your complexion. Packed with patient testimonials and celebrity anecdotes from stars like Katherine Heigl, Maria Bello, Kimora Lee Simmons, and Lisa Ling, FEED YOUR FACE is an easy-to-follow, 28-day diet plan that will help you banish blemishes, wipe out wrinkles, shed unwanted pounds, and generally feel better—in your clothes and in your skin. Along the way, Dr. Wu will dish the dirt on her journey from Harvard Medical School to the glamorous Hollywood Hills, while offering realistic, practical beauty and diet advice for women of all ages. Want to soften your crow's-feet? Find out which foods will turn back time. Plagued by pimples? Discover the snacks that will erase stubborn blemishes. Did you know milk doesn't always do a body good? Feel a sunburn coming on? Learn why red wine may save your skin from peeling and flaking. What does a hard-partying rock star eat for good skin? So stop thinking about food in terms of what you can't have: no butter, no red meat, no fat, and no flavor. Instead, discover the foods that will keep you feeling full and looking gorgeous. Follow the FEED YOUR FACE Diet, and you can have pizza. You can go out for Italian, indulge in Chinese takeout, and dine at The Cheesecake Factory (with the help of the FEED YOUR FACE Restaurant Guide). Because you do have the power to change your skin. All you have to do is eat.
