Social Justice and Political Change David Mason, 2018-04-17 Analysis and debate about economic and political justice rarely involves research on the views of the common person. Scholars often make assumptions about what common people think is fair, but for the most part they confine their thinking to a single country and argue on rational or moral grounds, with little supporting empirical data. *Social Justice and Political Change*, involves the collaboration of thirty social scientists in twelve countries, and represents broad-ranging comparative research. The book grows out of a collaborative study of public opinion about social justice. Though conceived prior to the revolutions that swept Central and Eastern Europe in 1989, the ISJP did not put its survey into the field until the summer of 1991, in a new climate of open international exchange in social research. Employing common methods of data collection and, within the limits of translation, identical survey instruments, the ISJP investigated public opinion in seven newly emerging post-Communist countries and five of the world's most influential capitalist democracies, with special sensitivity to divergencies in the newly united Germany. Among the themes addressed by the volume's distinguished contributors are the views and beliefs of citizens in the post-Communist states on the transition to market economies and parliamentary democracy; the role of ideology in legitimating inequality; the structural determination of beliefs about justice; the processes that shape individual level evaluations; and the major

implications of public opinion and mass participation in the democratic process.

Handbook of Criminal Cases D. E. Cranenburgh,1889

Seizing the Nonviolent Moments Nancy Small,2015-01-08 Life is filled with opportunities to practice nonviolence. If we kept track, we'd be surprised at how often we get to choose a violent or nonviolent response to a given situation. Seizing these moments is a spiritual practice that shapes a nonviolent heart. Many people doing this together shapes the heart of a nonviolent world. This book is a humble and accessible approach to nonviolence based on the belief that no one is perfectly nonviolent. We are all works in progress. Each chapter presents an imaginative interpretation of a scripture story about seizing a nonviolent moment that sheds new light on nonviolence and its spirituality. Stories of contemporary peacemakers woven throughout offer lessons for living a spirituality of nonviolence for our times. Prophetic words from the US Catholic bishops emphasize the essential role of peacemaking in renewing the earth. Questions following each chapter inspire personal reflection and make the book a welcome resource for classrooms, parishes, and small groups. The more we seize the nonviolent moments in our lives, the more we are transformed by them. And the more we experience the power of nonviolence within ourselves, the more we believe in its potential to transform our troubled world.
