Aegean Waves Nikolaos Chr Stampolidēs, Panagiōta I. Sōtērakopoulou, 2007 Late Neolithic and Early Bronze Age

Cycladic culture is best known for its flat female idols carved out of the islands' pure white marble. This beautiful illustrated book explores these periods in Cycladic culture and how the natural environment of the islands shaped its art. It also addresses the settlements of these periods and the artifacts produced by their potters, marble-carvers, and metalworkers. Maps are interspersed throughout the text, along with a chronological table, plans of known settlements, cemeteries, and individual tombs, as well as photographs of archaeological digs and landscapes by well-known photographers. Items from the Museum's Collection are also presented, followed by commentary and comprehensive text that venture at the items' probable significance and functions.

Museum of Cycladic Art, 2015 MUSEUM OF CYCLADIC ART - Nickos Stampolitis Nicholas and Dolly Goulandris started collecting archaeological objects at the beginning of the '60s, after being granted official permission by the Greek state. The collection soon became renowned among scholars because of its exquisite and rare Cycladic objects (marble figurines and vessels), which were published by Prof. Christos Doumas in 1968. The collection was first presented at the Benaki Museum in 1978. Between 1979 and 1983 it traveled to major museums and galleries around the globe: the National Gallery of Washington in 1979, the Museum of Western Art at Tokyo and Kyoto in 1980, the Houston Museum of Fine Arts in 1981, the Musees Royaux d'Art et d'Histoire and the Palais des Beaux Arts at Brussels in 1982, the British Museum at London in 1983 and the Grand Palais at Paris in 1983. In recent years, Cycladic objects from the N.P. Goulandris Collection have been presented at the Museo Nacional - Centro de Arte Reina Sofia in Madrid (1999). A few years ago, an exhibition of the collection was inaugurated by the President of the Hellenic Republic Karolos Papoulias in the Musei Capitolini in Rome.

(2006). In 2008 the Museum of Cycladic Art was invited for the Olympics in Beijing to present the Cycladic Collection in the Beijing Art Museum, Imperial City in the Chinese capital. Recently, an archaeological exhibition entitled: Across-The Cyclades and Western Anatolia during the 3rd millennium B.C. was organised in collaboration with the National Archaeological Museum and the Sakip Sabanci Museum at the latter in Istanbul.

Silent Witnesses Christos Doumas, Joan R. Mertens, 2002 The exhibition Silent Witnesses is a succinct presentation in the third millennium AD of the picture we have of the Cycladic islanders in the third millennium BC. Cycladic works of art speak to the modern audience both through their silence, as objects of unique conception and beauty, and as testimonies of a brilliant and significant culture that flourished in the Cyclades at the dawn of Western Civilization. Silent Witnesses is divided into three thematic sections: Simple Beauty, In His Own Image, and Silent Witnesses. In Simple Beauty, the exhibition presents streamlined, elegant objects with quotidian uses but whose beauty places them in the realm of sculpture. These artifacts were made from readily available materials on the islands, such as wood, marble, bone and stone. The section In His Own Image examines the variety of sculptures based on the human form, revealing the anthropocentric aspects of Aegean culture of this time. The final section, Silent Witnesses, presents the contents of graves that were systematically excavated by archaeologists. Having been collected as objects d'art, they are presented here as artifacts for serious historical and scientific examination. This final section emphasizes the need to educate the public about these pieces whose heritage was nearly lost. This volume explores the artistic tradition that existed in the so-called prehistoric period in the Cyclades. It includes illustrations and descriptions of the 59 objects in the exhibition such as clay and stone vases and of course numerous examples of the renowned Cycladic marble figurines.

Cycladic Art J. Lesley Fitton, 1990 At the dawn of European history, in the third millennium BC, the group of small Greek islands in the southern Aegean known as the Cyclades was the home of a remarkable and distinctive culture.

Early Cycladic Sculpture Pat Getz-Preziosi, 1995-01-12 First published in 1985, this ground-breaking book surveys the development of Cycladic sculpture produced by unidentified artists who worked in the Aegean islands forty-five hundred years ago. Illustrated with numerous objects from American collections—with particular emphasis on some two dozen pieces in the Getty Museum—this volume surveys the typological development of Early Cycladic sculpture and identifies, where

possible, the work of individual sculptors. Newly revised and updated, this book is a concise introduction to the field.

Multidimensional Perspectives and Approaches to Museum Sustainability González-Liendo, Julio, 2025-10-24 Museum sustainability evolves into a complex challenge requiring more than environmental awareness or financial stability. It calls for a holistic integration of ecological, social, economic, and cultural strategies. Museums are expected to adapt to changing societal needs, embrace inclusive practices, and adopt innovative technologies, all while maintaining their core mission. From energy-efficient building operations and responsible collections management to community engagement, digital transformation, and ethical governance, sustainability in museums encompasses a broad spectrum of concerns. Approaching museum sustainability through multiple lenses offers a more resilient, adaptive framework for ensuring museums thrive during global change. Multidimensional Perspectives and Approaches to Museum Sustainability explores museum sustainability from environmental, communicational, cultural, economic, and social perspectives. It examines current challenges while offering innovative solutions that ensure the future of museums in a changing society. This book covers topics such as social media, renewable energy, and cultural heritage, and is a useful resource for business owners, museum workers, sociologists, academicians, researchers, and environmental scientists.

Cycladic Art Seán Hemingway, 2024-05-13 This book presents highlights of the ancient Cycladic antiquities spanning more than three thousand years (5300–2200 BCE) from the Leonard N. Stern Collection. The featured works, on display at The Met through a special collaboration with the Hellenic Republic, include mesmerizing figurative sculptures as well as marble and terracotta vessels and metalwork. Seán Hemingway, John A. and Carole O. Moran Curator in Charge of the Department of Greek and Roman Art at The Met, writes eloquently about the subtleties of Cycladic craftsmanship during the Neolithic and Bronze Ages. Beautiful photography of the collection attests to the power of the seminal tradition of stone carving in Cycladic civilization.
