101 Funny Things About Global Warming Sidney Harris, 2007-12-26 Gathers cartoons from such artists as New Yorker contributors Jack Ziegler and Sam Gross, presenting a humorous look at global climate change and other environmental issues, including hybrid cars, alternative energy, and recycling.

The Best Political Cartoons of the Year Daryl Cagle, Brian Fairington, 2005

Giant Creatures in Our World Camille D.G. Mustachio, Jason Barr, 2017-10-13 Dismissed as camp by critics but revered by fans, the kaiju or strange creature film has become an iconic element of both Japanese and American pop culture. From homage to parody to advertising, references to Godzilla--and to a lesser extent Gamera, Rodan, Ultraman and others--abound in entertainment media. Godzilla in particular is so ubiquitous, his name is synonymous with immensity and destruction. In this collection of new essays, contributors examine kaiju representations in a range of contexts and attempt to define this at times ambiguous genre.

American Political Humor Jody C. Baumgartner, 2019-10-07 This two-volume set surveys the profound impact of political humor and satire on American culture and politics over the years, paying special attention to the explosion of political humor in today's wide-ranging and turbulent media environment. Historically, there has been a tendency to regard political satire and humor as a sideshow to the wider world of American politics—entertaining and sometimes insightful, but ultimately only of modest interest to students and others surveying the trajectory of American politics and culture. This set documents just how mistaken that assumption is. By examining political humor and satire throughout US history, these volumes not only illustrate how expressions of political satire and humor reflect changes in American attitudes about presidents, parties, and issues but also how satirists, comedians, cartoonists, and filmmakers have helped to shape popular attitudes about landmark historical events, major American institutions and movements, and the nation's political leaders and cultural giants. Finally, this work examines how today's brand of political humor may be more influential than ever before in shaping American attitudes about the nation in which we live.

Hot Button Bart King, Giacomo Calabria, 2022-07-26 A book that explores the delicacy and critical importance of getting history right, and teaching it in an age-appropriate way in the classroom, every time. Hot Button: Teaching Sensitive Social Studies Content explores the difficulty, delicacy, and ethical obligations of teaching accurate history to all students. It names

and explores the issues with being the 'tip of the spear' in the classroom after a long line of generally bureaucratic and political decisions are made and how to apply appropriate logic and decision making into what constitutes your scope and sequence and lesson plans as a social studies teacher. It features contributions from Alysha Butler, Kelly Reichardt, Gerardo Muñoz, Chris Dier, and accomplished author Bart King.

The Big Book of Campaign 2008 Political Cartoons Daryl Cagle, Brian Fairington, 2008 From the most popular cartoon site on the Web comes a collection of political cartoons that chronicles--and even skewers--the 2008 presidential race.

The Routledge Handbook of Museums, Media and Communication Kirsten Drotner, Vince Dziekan, Ross Parry, Kim Christian Schröder, 2018-12-07 Museums today find themselves within a mediatised society, where everyday life is conducted in a data-full and technology-rich context. In fact, museums are themselves mediatised: they present a uniquely media-centred environment, in which communicative media is a constitutive property of their organisation and of the visitor experience. The Routledge Handbook of Museums, Media and Communication explores what it means to take mediated communication as a key concept for museum studies and as a sensitising lens for media-related museum practice on the ground. Including contributions from experts around the world, this original and innovative Handbook shares a nuanced and precise understanding of media, media concepts and media terminology, rehearsing new locations for writing on museum media and giving voice to new subject alignments. As a whole, the volume breaks new ground by reframing mediated museum communication as a resource for an inclusive understanding of current museum developments. The Routledge Handbook of Museums, Media and Communication will appeal to both students and scholars, as well as to practitioners involved in the visioning, design and delivery of mediated communication in the museum. It teaches us not just how to study museums, but how to go about being a museum in today's world. The book is available for free in PDF format as Open Access at www.taylorfrancis.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license

The Environment Laura K. Egendorf, 2004 Few issues stir up greater controversy than the health of the environment. The contributors to this volume explore key ecological issues in these chapters: Is There an Environmental Crisis? How Can Pollution Best Be Prevented? Is the American Lifestyle Bad for the Environment? Which Policies Will Best Improve the Environment?

Attitude Ted Rall, 2002 This inspired collection of political cartoons laughs in the face of the mainstream political cartoons featured in daily newspapers that make lame jokes about the news while sucking up to the corporations that own them. This collection features the next generation of artists out to save the world: artists whose cartoons run in the hottest and most subversive alternative papers around the US.
