The Nationals Paul Davey,2006 The Nationals tells the story of the NSW National Party from its foundation in 1919 as The Progressive Party to the contemporary era under Andrew Stoner's leadership. Paul Davey, a former Federal Director and NSW General Secretary, writes with an insider's knowledge of the politics, policies and personalities that have shaped the modern party. His research is comprehensive including unfettered access to party archives. Emerging in the wake of World War I, The Progressive Party splits after only two years when seven of its 15 members refuse to join a coalition government. These dissidents become known as the True Blues and are the founding parliamentary members of the Country and subsequent National Party. The party grows into one of the largest political organisations in the country, boasting nearly 50,000 financial members in New South Wales in the 1980s. It fights off merger proposals and survives, despite constant predictions of impending doom, as the only party which exclusively represents rural and regional New South Wales. The State party is also highly influential in the national context; every Federal Leader since John McEwen's retirement in 1971 has come from New South Wales. The Nationals is as much about people as policies. Davey studied a myriad of documents and interviewed a wide cross-section of party figures including all surviving State and Federal leaders. The studies and candid comments shed new light on people, policies and incidents ranging from Mick Bruxner's and David Drummond's building of inland roads, railways and country education facilities to Charles Cutler's fight for State Aid for Independent schools; from the repulse of the Joh for Canberra campaign and Pauline Hanson's One Nation to the challenge of Independents; from sometimes poisonous relations with the United Australia and Liberal parties to the State's longest

serving Coalition Government; from relations with the media, especially the country press, to the role of women and young people in the organisation; from the threats posed by changing demographics and electoral redistributions to the push by Doug Anthony to change the name from Country Party to National Country Party and later National Party. The Nationals tells the story of a unique organisation - a political party that is not factionalised and that, despite occasional defections (not new in any party) remains remarkably stable. It has had only nine State and 11 Federal parliamentary leaders in its entire history to date. Moreover, while at times recording an apparently small share of the vote, it consistently returns a forceful block of members to the New South Wales and Commonwealth parliaments and wields, some would say disproportionately so, a significant influence on Australia's political direction. A NSW Sesquicentenary of Responsible Government publication.

Live the Life You Want with the Money You Have Vince Scully,2022-04-01 The must-have money handbook that will teach a new generation how to do money. 'Cut out your morning latte and you can be rich!' It's a popular view - but it's hopelessly inaccurate. The truth is, it's not our morning coffee that's keeping us out of the housing market or preventing us from building long-term financial security. We've never earned as much, owned as much, or been so highly educated, and yet millennials struggle with money more than any previous generation. Why? Because the old rules just don't work anymore. In *Live the Life You Want With the Money You Have*, Vince Scully, the founder of one of the first online financial planners Life Sherpa, shows you 8 simple steps to financial freedom that anyone can start right away, no matter how much money they have or how much debt they're in. Readers will learn how to review their spending habits, build an emergency stash, pay off debt, choose the right insurance, save up for your first home, make investments, and plan for retirement - all while feeling free to enjoy life. If you have ever thought: I make a good living; how come I don't have anything to show for it? I'll never be able to afford a house of my own. Retirement seems so far away; I just can't think about it Money is just too complicated; I can't make a decision Why does this money stuff all have to be such hard work? I'm only 30; do I really need to think about all this stuff right now? Then this is the book for you.
