**Leadership From the Middle** Andy Hargreaves, 2023-08-17 In the face of a global pandemic, catastrophic weather events, war, racism, and attacks on democracy, how should educational leaders respond? How can leaders enable their schools and districts to be agile, safe, and effective places of learning that help young people develop the knowledge and character that will empower them to shape their futures? While some schools and districts have taken top-down or bottom-up approaches, renowned education scholar Andy Hargreaves explores a new type of leadership – leadership from the middle – which becomes a driver of transformational change. Drawing from research with educational leaders across the United States, United Kingdom, and Canada, Hargreaves discusses a type of leadership that regards obstacles as opportunities, embraces leadership paradox, and is collaborative, inspiring, and inclusive. This ground-breaking book unpacks not only what this type of leadership looks like, but also how it is most effective in addressing complex problems and in educating young people to develop diverse global competencies to prepare them for their futures.

**So, You Want to Be a Leader?** Patricia Wooster, 2016-08-02 There are a myriad of ways kids today can not only grow

up to become the leaders of tomorrow but start leading right now. Covering everything from well known professions like school superintendent, and working in government, to the not-so-well-known professions like becoming an entertainment leader or spiritual advisor, Wooster uncovers a treasure trove of opportunity for kids to assert themselves now and in the future.

**A Darkly Radiant Vision** Gary Dorrien, 2023-07-25 The third and final volume in the first comprehensive history of Black social Christianity, by the “greatest theological ethicist of the twenty-first century” (Michael Eric Dyson) The Black social gospel is a tradition of unsurpassed and ongoing importance in American life, argues Gary Dorrien in his groundbreaking trilogy on the history of Black social Christianity. This concluding volume, an interpretation of the tradition since the early 1970s, follows Dorrien’s award-winning *The New Abolition: W. E. B. Du Bois and the Black Social Gospel* and *Breaking White Supremacy: Martin Luther King Jr. and the Black Social Gospel*. Beginning in the shadow of Martin Luther King Jr., Dorrien examines the past fifty years of this intellectual and activist tradition, interpreting its politics, theology, ethics, social criticism, and social justice organizing. He argues that Black social Christianity is today an intersectional tradition of discourse and activist religion that interrelates liberation theology, womanist theology, antiracist politics, LGBTQ+ theory, cultural criticism, progressive religion, broad-based interfaith organizing, and global solidarity politics. *A Darkly Radiant Vision* features in-depth discussions of Andrew Young, Jesse Jackson, Samuel DeWitt Proctor, Gayraud Wilmore, James Cone, Cornel West, Katie Geneva Cannon, Stacey Floyd-Thomas, Traci Blackmon, William J. Barber II, Raphael G. Warnock, and many others.

**The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes, Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider, longer-running tradition than has been thought. The tradition took shape in the nineteenth century, motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism/atheism. It is defined by its openness to modern intellectual inquiry; its commitment to the authority of individual reason and experience; its conception of Christianity as an ethical way of life; and its commitment to make Christianity credible and socially relevant to modern people. Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time, including William E. Channing, Ralph Waldo Emerson, Horace Bushnell, Henry Ward Beecher, Elizabeth Cady Stanton, and Charles Briggs. Dorrien notes that, although liberal theology moved into elite academic institutions, its conceptual foundations were laid in the pulpit rather than the classroom.

Leadership Through Story Sarah J. Noonan, Thomas L. Fish, 2007 Stories, ancient as life itself and deeply embedded within family and cultural traditions, transmit knowledge and shared meaning, linking people together in a human chain of history and memory. Leadership through Story offers a way for leaders and members (followers) to understand and experience the way a powerful story, when shared with others, serves as both a catalyst and vehicle to accomplish leadership. Leaders and members tell stories to achieve goals, experience compassion, manage change, solve problems, and/or promote social justice in democratic communities. To utilize stories to their fullest, leaders need to be aware of how the mutual exchange of stories and the meaning created from this exchange, promotes the changes we seek within and among us. Listening to diverse voices and locating turning points in dialogue--places where we are influenced and changed by others--inspires moral imagination and commitment, altering our lives together. In this way storytelling and dialogue serve as a foundation for personal and social transformation as well as cultural survivance in human communities.

**Too Stupid to Fail** Dr. Stephen Crawford, 2021-11-21 Too Stupid to Fail is an examination of the effects self-consciousness, doubt, and anxiety have on one's ability to succeed and achieve their goals. *Starting Lean from Scratch* Brent Donald Timmerman, 2019-05-15 What if the problem is you? For organizations just preparing to begin a continuous-improvement (CI) journey, the behaviors of the leadership must transform dramatically for the Lean toolkit to succeed. Many organizations invest in training colleagues about the power of the tools but fail to address the behavior and mindset of the leadership. Unfortunately, misaligned leadership behaviors will counteract any culture change that is attempted simply by pushing the use of Lean tools. This book outlines a comprehensive set of leadership principles that must be understood and modelled by the leadership before the CI Journey can effectively begin. This book organizes these leadership principles into a framework of a conceptual model called the Three Spaces of Lean Transformation. The model suggests that these spaces of Trust, Change, and Continuous Improvement must be consciously shaped, developed, and maintained by the organizational leadership if a continuous improvement culture change succeeds. This book organizes a set of leadership principles -- that supports the culture change -- into each of these three spaces. The book is written in the first-person narrative and maintains a mentoring format. This book is for professionals at the very beginning of an intimidating Lean journey and with very little background or formal Lean training. Although these leadership principles are framed in the approach of being necessary to support an innovation culture change, the principles are, in fact, those necessary to support effective employee engagement. In addition, this set of leadership principles, if modeled consistently by the leaders, will create an organizational culture that will attract and retain great employees. These principles form the strong leadership foundation that must be established in organizations where, previously, many of the

leadership behaviors were contrary to what is required by a Lean organization. The proper adoption of these leadership principles by an organization will support the long-term success of the Lean journey, and that this will enable a lasting, not a temporary, change to a continuous improvement culture.
