Bodies and Ruins David F. Crew,2017-05-19 Bodies and Ruins explores changing German memories of World War II as it analyzes the construction of narratives in the postwar period including the depiction of the bombing of individual German cities. The book offers a corrective notion rising in the late 1990s notion that discussions of the Allied bombing were long overdue, because Germans who had endured the bombings had largely been condemned to silence after 1945. David Crew shows that far from being marginalized in postwar historical consciousness, the bombing war was in fact a central strand of German memory and identity. Local narratives of the bombing war, including photographic books, had already established themselves as important “vectors of memory” in the late 1940s and early 1950s. The bombing war had allowed Germans to see themselves as victims at a time when the Allied liberation of the concentration camps and the Nuremberg trials presented Germans to the world as perpetrators or at least as accomplices. The bombing war continued to serve this function

even as Germans became more and more willing directly to confront the genocide of European Jews—which by the 1960s was beginning to be referred to as the Holocaust. *Bodies and Ruins* examines a range of local publications that carried photographic images of German cities destroyed in the air war, images that soon entered the visual memory of World War II. Despite its obvious importance, historians have paid very little attention to the visual representation of the bombing war. This book follows the search for what were considered to be the “right” stories and the “right” pictures of the bombing war in local publications and picture books from 1945 to the present, and is intended for historians as well as general readers interested in World War II, the Allied bombing of German cities, the Holocaust, the history of memory and photographic/visual history.

The Full Burn Kevin Conley, 2011-01-15 In *The Full Burn*, acclaimed journalist Kevin Conley goes inside one of the coolest - and most dangerous - jobs in the world. With bravura storytelling and full access to many of the legends of the field, Conley gives a behind-the-scenes view of the stuntman's life: the history, the culture, and the tricks of the trade, showing how-and why-stuntmen do what they do. He even subjects himself to the stuntman's rite of passage -- the book's eponymous stunt -- in which he is doused in jellied gasoline and set aflame. This is truly immersion journalism at its finest.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Almost Forgotten Joseph K. Oyler, 2011-01-20 At least 107 men from the Bridgeville and South Fayette area perished while serving our country in the military as early as the Civil War and as recently as the Vietnam War. The book documents who they were, where they lived, who their parents and siblings were, the conflict in which they served, their branch of service, when and where they perished, and where they are buried or memorialized. However, it goes beyond these details by relating anecdotes and human interest stories concerning the casualties, their friends, and their families. The author shares his memories of the men who perished, the conflicts in which they served, and his family's connection to the various conflicts.

Hundreds of men and women who contributed information to the author are acknowledged. The book unveils many interesting findings. For example, Alexander Asti perished with the Five Sullivan Brothers when the Japanese sank the light cruiser USS Juneau at Guadalcanal during World War 2. Most importantly, it resurrects the memory of these men who sacrificed their lives to preserve our liberty and freedom!
