The Black War Nicholas Clements, 2014-10-03 Foreword by Henry Reynolds. Between 1825 and 1831 close to 200 Britons and 1000 Aborigines died violently in Tasmania's Black War. It was by far the most intense frontier conflict in Australia's history, yet many Australians know little about it. The Black War takes a unique approach to this historic event, looking chiefly at the experiences and attitudes of those who took part in the conflict. By contrasting the perspectives of colonists and Aborigines, Nicholas Clements takes a deeply human look at the events that led to the shocking violence and tragedy of the war, detailing raw personal accounts that shed light on the tribes, families and individuals involved as they struggled to survive in their turbulent world. The Black War presents a compelling and challenging view of our early contact history, the legacy of which reverberates strongly to the present day.

*Van Diemen's Land* Murray Johnson, Ian McFarlane, 2015-03-01 The history of Aborigines in Van Diemen's Land is long. The first Tasmanians lived in isolation for as many as 300 generations after the flooding of Bass Strait. Their struggle against almost insurmountable odds is one worthy of respect and admiration, not to mention serious attention. This broad-ranging book is a comprehensive and critical account of that epic survival up to the present day. Starting from antiquity, the book examines the devastating arrival of Europeans and subsequent colonisation, warfare and exile. It emphasises the regionalism and separateness, a consistent feature of Aboriginal life since time immemorial that has led to the distinct identities we see in the present, including the unique place of the islanders of Bass Strait. Carefully researched, using the findings of archaeologists and extensive documentary evidence, some only recently uncovered, this important book fills a long-time gap in Tasmanian history.

*Empire and Indigeneity* Richard Price, 2021-05-30 Indigeneity is inseparable from empire, and the way empire responds to the Indigenous presence is a key historical factor in shaping the flow of imperial history. This book is about the consequences of the encounter in the early nineteenth century between the British imperial presence and the First Peoples of what were to become Australia and New Zealand. However, the shape of social relations between Indigenous peoples and the forces of empire does not remain constant over time. The book tracks how the creation of empire in this part of the world possessed long-lasting legacies both for the settler colonies that emerged and for the wider history of British imperial culture.

**They Called It Peace** Lauren Benton, 2024-02-13 A sweeping account of how small wars shaped global order in the age of empires Imperial conquest and colonization depended on pervasive raiding, slaving, and plunder. European empires amassed global power by asserting a right to use unilateral force at their discretion. *They Called It Peace* is a panoramic history of how these routines of violence remapped the contours of empire and reordered the world from the fifteenth to the twentieth centuries. In an account spanning from Asia to the Americas, Lauren Benton shows how imperial violence redefined the very nature of war and peace. Instead of preparing lasting peace, fragile truces ensured an easy return to war. Serial conflicts and armed interventions projected a de facto state of perpetual war across the globe. Benton describes how seemingly limited war sparked atrocities, from sudden massacres to long campaigns of dispossession and extermination. She

brings vividly to life a world in which warmongers portrayed themselves as peacemakers and Europeans imagined “small” violence as essential to imperial rule and global order. Holding vital lessons for us today, *They Called It Peace* reveals how the imperial violence of the past has made perpetual war and the threat of atrocity endemic features of the international order.

**Passionate Histories** Frances Peters-Little, Ann Curthoys, John Docker, 2010-09-01 This book examines the emotional engagements of both Indigenous and Non-Indigenous people with Indigenous history. The contributors are a mix of Indigenous and Non-Indigenous scholars, who in different ways examine how the past lives on in the present, as myth, memory, and history. Each chapter throws fresh light on an aspect of history-making by or about Indigenous people, such as the extent of massacres on the frontier, the myth of Aboriginal male idleness, the controversy over Flynn of the Inland, the meaning of the Referendum of 1967, and the policy and practice of Indigenous child removal.

**The Truth About Empire** Alan Lester, 2024-06-27 The Truth About Empire comes from expert historians who believe that the truth, as far as we can ascertain it, matters; that our decades of painstaking research make us worth listening to; and that our authority as leading professionals should count for something in today’s polarised debates over Britain’s imperial past. Colonial history is now a battlefield in the culture war. The public’s understanding of past events is continually distorted by wilful caricatures. Communities that long struggled to get their voices heard have, in their fight to highlight the hidden horrors of colonialism, alienated many who prefer a celebratory national history. The backlash, orchestrated by elements of the media, has generated a new, concerted denial of imperial racism and violence in Britain’s past—a disinformation campaign sharing both tactics and motivations with those around Covid, Brexit and climate change. From Australia and China to South Africa and Egypt, this essay collection is an accessible guide to the British Empire, and a weapon of defence against the assault on historical truth. The disturbing stories told in these pages, of Empire’s culture, politics and economics, show why professional research matters, when deciding what can and cannot be known about Britain’s colonial history.

**The Black Police** Arthur James Vogan, 1890 Novel by British journalist, Arthur Vogan, concerned with Queensland's Native Police Force. In a 'Note to the readers' at the start of the novel, Vogan states The scenes and main incidents employed are chiefly the result of my personal observations and experiences. Within the novel, Vogan details atrocities committed by the Native Police Force, and is also very critical of behaviour of the wider community of settlers towards Aboriginal Australians and their children. Of note, Vogan includes a map towards the end of the novel, entitled Slave map of modern Australia within which are shown areas of Milder forms of Aboriginal slavery, Worst forms of slavery and Natives all destroyed in Black War.
