*The Sons of Sa-Nanda Study Book Four, The Ancient & Mystic Order of Iu-em-Hetep, Jesus Christ Jesus in Kemet* Faheem Judah-El Tjeti, 2014-04-24 This is study book four of The Sons of Sa-Nanada, the Ancient & Mystic Order of Iu-em-hetep, Jesus Christ. Question: where did the Roman's Christian deity originate? Answer: good question, the Roman's first worshiped a deity called Mithra. Mithra was an adaptation of the ancient Egyptian (Kemetian) deity Ra: hence Mith-Ra. Mithra was originally worshiped by the ancestors of the Persians when they were still united with the Dravidians of the Indus Valley. The Dravidians were already worshippers of Mithra. The hymns of the Vedas and Avesta celebrated the name of Mithra, and despite the differences between the two theological systems, the Vedic Mitra and the Persian Mithra have preserved the original Egyptian (Kemetian) origin of the Creative Force of Creation which is Ra. Both spiritual systems saw Mithra as a god of light, invoked together with Heaven, also known as Varuna by the Dravidians, and Ahura by the Persians; his main attribute was Protector of Truth, and the Antagonist of Falsehood and Lies.

**Creating Christianity - A Weapon Of Ancient Rome** Henry Davis, 2018-10-06 A profound and controversial investigation of a complex theme - the war that led to the fall of Jerusalem and the creation of the Christian religion. The religious and political battle between the people of Judea and the Jewish and Roman aristocracies is presented in an unconventional narrative, which investigates ancient evidence, quotes from the work of respected authorities on the subject, and states controversial opinions openly. Its main conclusion is that the New Testament (the new law) was created by a powerful senatorial family called the Calpurnius Pisos, who had the full support of their relatives, the Herodian royal family (the family of 'Herod the Great'), and the Flavian emperors, with the Piso family hiding their name within the Koine Greek scriptures. The result is a book that is both provocative and compelling. Using valuable feedback from Cambridge and Oxford University professors, Henry Davis explains why the supposed Jewish Historian, Flavius Josephus, never existed, how the Book of Revelation presents the name of the Piso family member who oversaw the creation of the Christian scripture, and the reason the number 666 was changed to 616. Davis also explains the facts behind the personal and political reasons that led to the Roman and Jewish royal families creating a new religion, and how the Piso family used the literary techniques of the aristocracy to insert their names into the scriptures. '... I found his selection of evidence to be both interesting and compelling...' Creating Christianity: A Weapon Of Ancient Rome is a thoughtful work of historical non-fiction by author Henry

Davis. Anyone with a knowledge of the history of the Roman Empire knows that its conversion from a pagan belief system to widespread Christianity was a significant political and military move for the Empire as much as it was a religious decision, and this book focuses on the specific details and clues as to how that really came about. Davis searches for the real identity of the Christian Messiah and argues for a potentially Roman author of the modern New Testament, one who had a view to creating a new religion for his own reasons as much as those of Rome. - Readers' Favorite □□□□

**The Celestial Scriptures** C. M. Houck, 2002-01-22 The Celestial Scriptures will challenge every spiritual principle that has been imposed upon us through tenets or organized religions. It is not easy to face the fact that religious pronouncements—often contradictory—are primarily distortions regarding some universal truth as seen through myth and superstition. The Celestial Scriptures will challenge the reader to get acquainted with a means of spiritual understanding that is unfamiliar, for it reinstates an extremely ancient device as a teaching tool. The irony is that most people in our technological society have at least a passing awareness of this device and associate it with a frivolous pastime. In spite of all humankind's technological advances, we have not learned to override the conditioned religious interpretations that were set down by ancestors who insisted that the Earth was the center of Creation. We have climbed out of such simplemindedness and have raised virtual mountains of technological wonders. But amazingly, from the summits these mountains where we are privileged to peer into the living heart of universal truths, we still bow before mythic explanations and superstitions! It is time to face the fact that deceptions have lurked in the halls of faith for far too long.

**Piso Christ** Roman Piso, 2010-07-22 Evidence shows the New Testament texts were not written by simple, non-royal subjects, but instead were created by extremely well-educated, royal Romans. In *Piso Christ*, author Roman Piso, with Jay Gallus, presents a new perspective to show that the creation of Christianity has different origins than previously taught. Through this collection of essays and articles, Piso shows that only a few individuals invented and built the Christian religion, and these same individuals authored the New Testament of the Christian Bible. *Piso Christ* addresses the issues of how these few people wielded that much power and how they were able to succeed. In this new book, Piso contends that the royalty wanted to protect their centuries-old institution of slavery upon which the empire functioned, lived, fed, and gained wealth. The royal people understood that knowledge was power and, therefore, did what they could to keep the masses ignorant and superstitious. Through research, *Piso Christ* shows that the god concept did not originate in what is represented in the Bible. It demonstrates how millions of people are being misled into accepting the concept of a god and how they live in fear of an unnatural belief.

Crimes of Humanity: The Enduring Legacy of Astrotheology and the Sacred Arts Jared Bailey, 2015-10 Crimes of Humanity is a historical account of the traditions of astrotheology, not only in epochs past, but in the modern and post-

modern age as well. Ikal digs deep into the archives of history to define what the astrology cults were to the societies they served, from their many functions, their expressed virtues, as well as their folly. It is fully comprehensive, suggestively critical and wholesomely educational.

Slaves in the New Testament James Albert Harrill,2006 In this exciting new analysis of slaves and slavery in the New Testament, Harrill breaks new ground with his extensive use of Greco-Roman evidence, discussion of hermeneutics, and treatment of the use of the New Testament in antebellum U.S. slavery debates. He examines in detail Philemon, 1 Corinthians, Romans, Luke-Acts, and the household codes.

An English Edition of Bruno Bauer's 1843 Christianity Exposed Bruno Bauer,2002 Bruno Bauer wrote scores of scholarly books which were widely quoted. He was a mentor to Marx and an elder mentor to Nietzsche, and his controversial theology impelled the Prussian government to ban him from lecturing. This remarkable work, first banned, and then ignored contains historical clues into the temper of the time. He advanced Hegel's theological phenomenology, especially with his treatment of the moment of transition from Stoicism to Christianity.

**On Frank Criticism** Philodemus,David Konstan,1998 Presents a side-by-side Greek-English translation of Philodemus' On Frank Criticism. The essay is of vast importance to an understanding of the relationship between classical culture and early Christianity. It treats techniques of pedagogy and moral improvement within the philosophical community that were to be central concerns of Christian teachers, whether in a congregational or a monastic context. **Introduction to the New Testament: History, culture, and religion of the Hellenistic age** Helmut Koester,1995 While the first American edition of this book, published more than a decade ago, was a revised translation of the German book, Einführung in das Neue Testament, this second edition of the first volume of the Introduction to the New Testament is no longer dependent upon a previously published German work. The author hopes that for the student of the New Testament it is a useful introduction into the many complex aspects of the political, cultural, and religious developments that characterized the world in which early Christianity arose and by which the New Testament and other early Christian writings were shaped.
