Waves of Opposition Marvin D'Lugo, 2006-05-24 Follows Pedro Almodovar's career chronologically as he moves from amateur to international celebrity, and understands the films' complexity in terms of the director's central themes and the Spanish film tradition from which he comes. This work is of interest to new film students and specialists alike.

The X List Jami Bernard, 2009-04-20 National Society of Film Critics dares to go where few mainstream critics have gone before-to the heart of what gets the colored lights going, as they say in *A Streetcar Named Desire*. Here is their take on the films that quicken their (and our) pulses-an enterprise both risky and risqué, an entertaining overview of the most arousing films Hollywood has every produced. But make no mistake about it: This isn't a collection of esoteric critic's choice movies. The films reflect individual taste, rubbing against the grain of popular wisdom. And, because of the personal nature of the erotic forces at play, these essays will reveal more about the individual critics than perhaps they have revealed thus far to their readers. The Society is a world-renowned, marquee-name organization embracing some of America's most distinguished critics, more than forty writers who have followings nationally as well as devoted local constituencies in such major cities as New York, Chicago, Los Angeles, Boston, Philadelphia, Atlanta, and Minneapolis. Yes, The X List will have something for every lover of film-and for every lover.

Mirror Images Diana Silberman-Keller, 2008 This book considers education in both formal and informal settings, and

looks critically at the accepted dichotomy between education and popular culture. It argues that popular culture is capable of educating and that education shares many characteristics with popular culture, and tries to overcome these dichotomous relationships while also trying to clarify the reciprocal effects between the two.
