The Last American President Thom Hartmann, 2025-09-23 From bestselling progressive talk show host Thom Hartmann comes an urgent autopsy of American democracy, showing how plutocrats, political cowardice, and systemic rot built the perfect runway for Trump's authoritarian ascent. The Last American President rips open America's wounded democracy to expose a terrifying truth: Donald Trump isn't an anomaly—he's the inevitable product of a system engineered to fail. This searing investigation reveals how a man forged by childhood trauma, pathological narcissism, and calculated cruelty didn't hijack democracy—he was handed the keys by those who should have been its guardians. Hartmann uncovers the unholy alliance between Trump's damaged psyche and America's rotted institutions. From Fred Trump's brutal parenting to Roy Cohn's lessons in shamelessness, from a Republican Party that traded principles for power to billionaire donors who treated democracy as a profit center, this book exposes the assembly line that manufactured an authoritarian. But this is about more than Trump's past—it's about America's future. As climate catastrophe accelerates and fascism spreads globally, Hartmann reveals the nightmare scenario: a second Trump term that doesn't just end American democracy but also triggers irreversible planetary damage. Through meticulous research and unflinching analysis, he shows how political cowardice and corporate greed created the perfect storm that could extinguish humanity's last chance at survival. This isn't just political commentary—it's a last-minute alarm sounding before the point of no return.

The Rhetoric of Black Mayors Deborah F. Atwater, 2010-08-30 The Rhetoric of Black Mayors explores the rhetorical and practical efforts of Black mayors in building coalitions to win elections and govern cities. Atwater discusses and analyzes the process of creating coalitions by each mayor by dealing with the news coverage of the mayors by both the black and mainstream press. As a unique feature, the text includes interviews with most of the mayors included in The Rhetoric of Black Mayors. These mayors are from cities on the east coast, ranging from the large city of Philadelphia to the small city of Glenarden, Maryland. This text covers successful administrations, as well as those that are challenging and problematic.

Bodies of Evidence Nan Alamilla Boyd, Horacio N. Roque Ramirez, 2012-02-17 When written sources are scarce, historians

often turn to oral histories for evidence. *Bodies of Evidence: The Practice of Queer Oral History* is the first book to provide serious scholarly insight into the methodological practices that shape lesbian, gay, bisexual, transgender, and queer oral histories. The volume opens up a critical dialogue on the challenges of creating an archive of queer lives. Highlighting the work of fourteen authors who focus their research on queer community history, culture, and politics, each chapter pairs an oral history excerpt with an original essay in which the oral historian addresses his or her methods and practices. With an afterword by the preeminent scholar in the field, John D'Emilio, this collection enables readers to examine both a series of oral histories and analysis of the role memory, desire, sexuality, and gender play in documenting LGBTQ communities and cultures. The historical themes addressed within include lesbian bar history in San Francisco (c. 1940s, 1950s); early homophile organizing and social activism in Los Angeles (c. 1950s and 1960s); Third World Liberation and feminist antiwar activism in the U.S. and Canada (c. 1960s, 1970s); electoral politics and the career of Harvey Milk, the first openly gay elected official in San Francisco (1970s); Latino AIDS memory and activism in San Francisco (1980s, 1990s); and the war in Iraq (2000s). The methodological themes addressed in this book that are relevant to the practice of oral history include questions of sexual self-disclosure and voyeurism in the uses of oral history methods by queer studies scholars; the intimacy between researcher and narrator negotiated through multiple oral history interviews and on-going casual conversations; the production of comparative racial and sexual identities within the context of oral history interviews; the production of in-group mythology by same-sexuality interviewing--and the possible benefits of cross-sexuality and cross-ideology interviewing; what heterosexually-identified narrators can tell us about LGBTQ life and death; the silences imposed by repressive U.S. government policy about sexual self-disclosure and the limits of permissible speech in highly politicized discourses such as gays in the military. These themes provide new and insightful structures for thinking about oral history methods--both in general and in relation to the production of LGBTQ history.
