## Michael Parenti

Blackshirts and Reds Michael Parenti, 2020-09-09 A bold and entertaining exploration of the epic struggles of yesterday and today. Blackshirts & Reds explores some of the big issues of our time: fascism, capitalism, communism, revolution, democracy, and ecology. These terms are often bandied about, but seldom explored in the original and exciting way that has become Michael Parenti's trademark. Parenti shows how rational fascism renders service to capitalism, how corporate power undermines democracy, and how revolutions are a mass empowerment against the forces of exploitative privilege. He also maps out the external and internal forces that destroyed communism, and the disastrous impact of the free-market victory on eastern Europe and the former Soviet Union. He affirms the relevance of taboo ideologies like Marxism, demonstrating the importance of class analysis in understanding political realities and dealing with the ongoing collision between ecology and global corporatism. Written with lucid and compelling style, this book goes beyond truncated modes of thought, inviting us to entertain iconoclastic views, and to ask why things are as they are. A penetrating and persuasive writer with an astonishing array of documentation to implement his attacks. —The Catholic Journalist By portraying the struggle between fascism and Communism in this century as a single conflict, and not a series of discrete encounters, between the insatiable need for new capital on the one hand and the survival of a system under siege on the other, Parenti defines fascism as the weapon of capitalism, not simply an extreme form of it. Fascism is not an aberration, he points out, but a 'rational' and integral component of the system.—Stan Goff, author of Full Spectrum Disorder: The Military in the New American Century Michael Parenti, PhD Yale, is an internationally known author and lecturer. He is one of the nation's leading progressive political analysts. Author of over 275 published articles and twenty books, his writings are published in popular periodicals, scholarly journals, and his op-ed pieces have been in leading newspapers such as The New York Times and The Los Angeles Times. His informative and entertaining books and talks have reached a wide range of audiences in North America and abroad.

**Summary of Michael Parenti's Blackshirts and Reds** Everest Media, 2022-06-15T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Fascist history exists in many forms, from posters and T-shirts to books and articles that attempt to sanitize fascist history. They say little if anything about the class policies of fascist Italy and Nazi Germany. #2 Fascist leader Benito Mussolini was born in 1883. He had spent his early life fighting with socialists, and by the end of World War I, he had become a fascist, organized strikes for landowners and industrialists, and

broke strikes on behalf of financiers. #3 In Germany, the Nazis were funded by business tycoons to terrorize workers and farm laborers, and in 1930, most of the tycoons had decided that the Weimar Republic no longer served their needs. They greatly increased their subsidies to Hitler, propelling the Nazi party onto the national stage. #4 Fascist politics and economics were similar in Italy and Germany, two countries with different histories, cultures, and languages. They ended up with the same repressive solutions because of the similarities of economic power and class conflict that existed in their respective countries.

**Contrary Notions** Michael Parenti, 2007-08-01 Internationally acclaimed, award-winning author Michael Parenti is one of America's most astute and engaging political analysts. Parenti's work has enlightened and enlivened readers for many years, covering a wide range of subjects. Here is a rich selection of his most lucid and penetrating writings on real history, political life, empire, wealth, class power, technology, culture, ideology, media, environment, sex, and ethnicity. Also included are a few choice selections drawn from his own life experiences and political awakening. Parenti goes where few political observers dare to tread. Time and again he takes the extra step beyond the parameters of permissible opinion, and time and again he succeeds in carrying the reader with him. The selections herein, that are reprinted from previously published works, have been revised and updated. Other offerings appear here for the very first time. Radical in the true sense of the word, [Parenti] digs at the roots which...sustain our public consciousness.—Los Angeles Times Book Review Prominent leftist public intellectual Parenti has built a reputation for himself as a trenchant, yet engaging and accessible, critic of capitalism, imperialism, and other forms of exploitation and violence and this diverse collection of his writings will not disappoint his fans (nor, probably, convince his detractors). Over the course of the collection he takes on the corporate media, intellectual repression in academia, the stolen presidential elections of 2000 and 2004 (not that he's a fan of Al Gore or John Kerry), right wing judicial activism, free-market orthodoxies and mythologies, racism, sexism, homophobia, postmodern attacks on Marxism, the distortions of dominant history, ill-informed demonizations of the Venezuelan political process, his own life, and many other topics.—Book News, Inc. A prolific author, a charismatic speaker, and a regular guest on radio and television talk shows, Parenti communicates his message in an accessible, provocative, and historically informed style that is unrivaled among fellow progressive activists and thinkers.—Aurora Online Michael Parenti is a critically acclaimed author and an extraordinary public speaker. He received his Ph.D. in political science from Yale University and has taught at a number of colleges and universities, in the United States and abroad. He is the author of twenty books, including *Superpatriotism*, *The Assassination of Julius Caesar*, *Inventing Reality*, and *Democracy for the Few*.

*The Great Class War 1914-1918* Jacques R. Pauwels, 2016-04-06 Historian Jacques Pauwels applies a critical, revisionist lens to the First World War, offering readers a fresh interpretation that challenges mainstream thinking. As Pauwels sees it, war offered benefits to everyone, across class and national borders. For European statesmen, a large-scale war could give

their countries new colonial territories, important to growing capitalist economies. For the wealthy and ruling classes, war served as an antidote to social revolution, encouraging workers to exchange socialism's focus on international solidarity for nationalism's intense militarism. And for the working classes themselves, war provided an outlet for years of systemic militarization -- quite simply, they were hardwired to pick up arms, and to do so eagerly. To Pauwels, the assassination of Archduke Franz Ferdinand in June 1914 -- traditionally upheld by historians as the spark that lit the powder keg -- was not a sufficient cause for war but rather a pretext seized upon by European powers to unleash the kind of war they had desired. But what Europe's elite did not expect or predict was some of the war's outcomes: social revolution and Communist Party rule in Russia, plus a wave of political and social democratic reforms in Western Europe that would have far-reaching consequences. Reflecting his broad research in the voluminous recent literature about the First World War by historians in the leading countries involved in the conflict, Jacques Pauwels has produced an account that challenges readers to rethink their understanding of this key event of twentieth century world history.

*Whither Class?* Xueping Zhong, 2025-02-24 This book argues that the revolutionary, anti-revolutionary, counter-revolutionary, and post-revolutionary dialectics in modern Chinese history since the early-20th century characterizes modern and contemporary Chinese literature the most. Central to these dialectics are issues of class. The book contends that one cannot fully understand modern and contemporary Chinese literature without understanding the class character of Chinese revolutionary and counter-revolutionary struggles, including literary practices and their various contradictions. Considering literature via the notion of "the event" and focusing on three specific historical junctures, this project explores how, as a major cultural form, literature has played an outsize role in China's struggle for liberation and quest for modernity. It highlights the need to understand class and the extent to which it shapes literary and artistic forms and expressions as well as the on-going debates over the relationship between politics and aesthetics.

*Why the World Needs China* Kyle Ferrana, 2020-01-01 While the US portrays itself as a noble example of freedom and democracy, it has in fact led the world to greater inequality than ever before. But now, for the first time in decades, nations facing the brunt of its domination and exploitation have alternative, more tenable options in pursuit of development. Chinese finance is building badly-needed infrastructure where the West would not, Chinese commerce is providing a lifeline to countries the US has targeted for destruction, and Chinese industry is producing new sources of renewable and transition energy at an unparalleled rate. This book addresses: China's development and political economy based on independent studies, statistical data, and comparative analysis Current geopolitical conflicts and major developments and their relation to China Chinese finance and its effect on the rest of the world, particularly Africa. China's profound emphasis on environmentalism, renewable energy, and plan for the future. Though it has yet to fully step into this role, the People's Republic of China has become the de facto leader of a future multipolar world.

Masters of War Carl Boggs, 2013-10-11 Few United States citizens conceive of their country as an empire, but, as the contributors to *Masters of War* convincingly argue, the U.S. legacy of military power runs long and deep. Often mobilized in the name of spreading democracy, maintaining international order, and creating the conditions for economic self-determination, constantly expanding global U.S. military power is difficult to characterize as anything but an imperialism bent on global domination. However, at the same time that the U.S. government hawks rhetoric of human rights and national sovereignty, its dominion has begun breeding widespread resistance and opposition likely to make the twenty-first century an era marked by sustained, and generally unanticipated, blowback. Presenting a wide range of essays by some of the anti-war movement's most vocal and incisive critics, *Masters of War* reminds us that worldwide economic and military dominance has its price, both globally and domestically.

Exodus From Empire Terrence E. Paupp, 2006-11-20 This book lays out a comprehensive vision for a new world order based on cooperation between the developing world and leading Left countries in Latin America. Arguing that the ravages of corporate capitalism are unsustainable, Terrence E. Paupp presents an energetic critique of the problems of empire, and looks ahead to a global countermovement against the IMF and US hegemony.

**Red Flags** David Camfield, 2025-04-24T00:00:00Z Increasingly, people are responding to the contemporary crises underwritten by capitalism by exploring the politics of communism. Some have taken a sympathetic, even nostalgic, view of “actually existing socialist” (AES) societies past and present, including the USSR, China, and Cuba, and the Marxist-Leninist political tradition associated with them. They see these states as a powerful alternative to capitalism, governed by parties genuinely committed to socialism and staunchly resisting Western imperialism. But were these societies really in transition towards a classless, stateless society of freedom — the original communist goal? Is Marxism-Leninism the political approach that should orient people on the left now? *Red Flags* traces the path from the 1917 Russian Revolution to the construction of the world's first AES society: the USSR. It also looks at the post-revolution societies created along the same lines in China and Cuba. Using the intellectual tools of historical materialism, *Red Flags* argues that they were not in fact moving towards communism because the social relations remained fixed in class exploitation. The workers were never liberated. At a time of burgeoning anti-communism from both conservatives and liberals, this book is an accessible, vibrant synthesis of the history of communism that draws on the latest research to develop a rigorous analysis of the contradictions and uneasy truths the left needs to confront if it is to build a genuinely liberatory alternative to capitalism.

**Domination and Emancipation** Daniel Benson, 2021-11-01 A melancholy defeatism has become a hallmark of critical thought and leftist politics. A consequence of this has been an exaggerated focus on domination among critical theorists, leaving emancipation—along with questions of political organization and strategy—undertheorized at best, or disregarded as delusional, at worst. If emancipation still plays a role in critical reflection, it is most often in a “domesticated” form, made

into a bedfellow of centrist liberalism. Recent events necessitate a different outlook, especially since the financial collapse of 2008 and the myriad movements—emancipatory as much as reactionary—it has spawned throughout the world. Through a series of dialogues and reflections by leading thinkers, scholars, and activists, *Domination and Emancipation: Remaking Critique* seeks to rebuild the emancipatory pole of critique and bring forward theoretical work that is in step with the struggles and aspirations of the moment.

**Voices of the Chicago Eight** Ron Sossi, Tom Hayden, Frank Condon, 2008-06 Dramatically edited transcripts from the explosive 1969 conspiracy trial are paired with historic contextual writings to provide the essential Chicago Conspiracy handbook

**America Besieged** Michael Parenti, 1998-05 *America Besieged* deals with the underlying forces within U.S. society that deeply affect our lives. Showing how we are being misled and harmed by those who profess to have our interests at heart, Michael Parenti writes: We are indeed a nation besieged, not from without but from within, not subverted from below but from above; the moneyed power exercises a near monopoly influence over our political life, over the economy, the state, and the media. Some Americans are astonished to hear of it. Others have had their suspicions, although they may not be quite sure how it all adds up. This book invites the reader to stop blaming the powerless and poor and, in that good old American phrase, start 'following the money.' That is the first and most important step toward lifting the siege and bringing democracy back to life. Michael Parenti, one of America's most astute and entertaining political analysts, is the author of *Against Empire*, *Dirty Truths*, *Blackshirts and Reds: Rational Fascism and the Overthrow of Communism*, *Democracy for the Few*, *Land of Idols: Political Mythology in America*, and many other books.

**Prevailing Winds**, 1995

**Dirty Truths** Michael Parenti, 1996 *Cultural Writing. Essays.* This collection of essays is both eye-opening and entertaining. Investigating media and culture, conspiracy and state power, and ideology and political consciousness, Parenti focuses on a variety of issues including free speech, the rise of neofascism, the relationship between wealth and poverty, the terrorism hype, the continuing mystification about the Kennedy assassination, and the deceptions and injustices of global domination. He shows the links between seemingly disparate social and political forces. The book also includes three of his poems and moving accounts of his own family life and the political intolerance he encountered in academia. Michael Parenti is one of the country's most astute and engaging political analysts and has taught in a number of universities. He is living now in Berkeley, California.

*History as Mystery* Michael Parenti, 1999 *History as Mystery* pursues themes ranging from antiquity to modern times, from the Inquisition and Joan of Arc to the anti-labor bias of present-day history textbooks. Parenti challenges the image of early Christianity as a movement for the poor and a beacon of light in the Dark Ages. He unmasks the Church's support of

slavery and serfdom, its suppression of learning and culture, and its oppression of heretics, women, and Jews.--BOOK JACKET.

**Globalization and Change** Berch Berberoglu,2005 Globalization and Change: The Transformation of Global Capitalism explores the origins, development, and transformation of globalization from a critical and historical perspective. Berch Berberoglu brings together eight essays authored by prominent sociological scientists from across the nation that examine the dynamics of globalization through an analysis of class relations and class struggles that define the contemporary global political economy. By undertaking a careful examination of the contradictions inherent in capitalist globalization, this book provides a thorough understanding of the issues behind the global capitalist economy and the struggle against globalization, while at the same time offering a viable solution to the growing exploitation of labor throughout the world. This study on global capitalism, informed by class analysis, is essential to anyone interested in the political implications of globalization and the unfolding class struggles.

**Saving Private Power** Michael Zezima,2000 Virulently questions the ultra-patriotic assumptions we have been taught since birth about the reasons behind the second World War, and the underlying assumptions which have underpinned involvement of the US and other countries.
