*Images of Women in Hispanic Culture* Teresa Fernandez Ulloa, 2016-08-17 This book studies the ways traditional polarized images of women have been used and challenged in the Hispanic world, especially during the 20th century and the beginning of the 21st century by writers and the media, but also in earlier time periods. The chapters analyze the image of women in specific political periods such as Francoism or the Kirchners' administration, stereotypes of women in films in Mexico and Chile, and the representation of women in textbooks, among other topics. Contributions also show how two women writers, in the 17th and the 19th centuries, viewed the role of women in their society.

Cuatro palabras clave direccionan este último libro de *Pensar la infancia II*: textos escolares, saberes, agencia y emocionalidad. Al interior de sus páginas el autor podrá encontrar agudas reflexiones que van desde la historia del libro de texto (la manualística en Latinoamérica), la preocupación por los procesos formativos en escenarios ancestrales o de bilingüismo, la problematización del concepto de «agencia» en escenarios de cuidado y formación de la primera infancia; hasta interesantes estudios de caso

sobre emociones primarias en niños y niñas, y cómo acceden a ese plano de sí mismos. Este compendio cierra con una suscita reseña sobre los trabajos de investigación que han sido desarrollados por los egresados de la Maestría en Infancia desde el 2019 y el 2021.
