Textos que se leen en la universidad Margaret Gillian Moss, Teresa Benítez Velásquez, Jorge Mizuno Haydar, 2017-01-09

Esta obra presenta un análisis de las características genéricas y discursivas de los textos que se leen en algunas áreas disciplinares de la Universidad del Norte (Barranquilla, Colombia), y propone formas para abordar la lectura en clase desde la Pedagogía de Géneros desarrollada en la Escuela de Sydney. Profesores universitarios interesados en desarrollar competencias lectoras en sus asignaturas; docentes de español que deseen conocer estrategias para analizar textos y aplicar una metodología para enseñar lectura, así como investigadores en el área de lingüística aplicada, encontrarán aquí valiosa información derivada de una interesante investigación realizada en el marco del programa Eficacia Comunicativa que lidera la Universidad del Norte.

Impacts of Technology on Operations Management: Adoption, Adaptation, and Optimization Ullah, Asad, Pandey, Jitendra, Masengu, Reason, 2024-10-11 The impact of technology on operations management reshapes how organizations

approach adoption, adaptation, and optimization of their processes. As businesses integrate advanced technologies such as automation, data analytics, and artificial intelligence, they are revolutionizing operational efficiency. The adoption of these technologies helps streamline workflows while enhancing decision-making capabilities. Adaptation strategically implements these innovations to align with organizational needs, while optimization drives continuous improvement by enabling precise performance tracking and predictive analytics. More exploration into these technological advancements may assist businesses in refining their operations, reducing costs, and achieving greater competitive advantage in today's market.

Impacts of Technology on Operations Management: Adoption, Adaptation, and Optimization examines the impact of technology on operations management within organizations. It explores solutions for business optimization, quality management, and product development using technology like AI, IoT, smart and digital technology, and data algorithms. This book covers topics such as circular economy, digital technology, and supply chains, and is a useful resource for computer engineers, managers, business owners, economists, scientists, academicians, and researchers.

Procesos de fabricación en metales Leonardo Emiro Contreras Bravo, Luis Fernando Vargas Tamayo, Ricardo Augusto Ríos Linares, 2018-07-01 Este libro hace un recuento referente a los materiales, pasando por su estructura, propiedades y clasificación (metálicos, poliméricos, cerámicos y compuestos), para ahondar en los procesos de fabricación por medio de los cuales se transforma la materia prima para obtener una pieza de mayor valor (producto terminado). Lo anterior con el objetivo de que el lector se familiarice con los materiales y los procesos de manufactura a través de conceptos teóricos y ejercicios o problemas resueltos que permitan comprender mejor cada una de las transformaciones de materiales realizadas por medio de los diferentes equipos industriales. Surge de una inquietud frecuente en los docentes encargados de impartir las asignaturas relacionadas con los Materiales de Ingeniería y proceso de manufactura, como son llamadas en los currículos universitarios tradicionales de las carreras de ingeniería mecánica, industrial y afines, con el fin de explorar la posibilidad de generar en el estudiante universitario nuevas competencias que faciliten al egresado su actuar profesional a través de la utilización y procesamiento de los diferentes tipos de materiales.

Strengthening Value Chains as an Industrial Policy Instrument Ramón Padilla, 2014 This publication presents the recent experience of the Economic Commission for Latin America and the Caribbean (ECLAC) in respect of industrial policy design and technical assistance for the Governments of two Central American countries: El Salvador and Guatemala. It adopts a value chain approach to identify in detail the restrictions facing these chains, both as a whole and at each of their links. Strategies aimed at strengthening value chains are participatory (public-private) and act as a driver of structural change by

boosting productivity and value added, especially among small producers.

Economía peruana: ¿milagro o ficción? Roberto Chang,2024-07-01 «La actual coyuntura política y social presenta enormes retos para el Perú. Este libro no solo plantea la defensa de nuestra destacada estabilidad macrofinanciera, sino sentar las bases institucionales para reencaminarnos hacia el desarrollo». Claudia Cooper, exministra de Economía y Finanzas «Roberto Chang nos presenta más de cincuenta artículos cortos y amenos sobre macroeconomía, crecimiento, pobreza y otros temas fundamentales de la coyuntura reciente. Su lectura es recomendable no solo por la diversidad de temas tratados de forma breve y sustanciosa, sino que han sido escritos por más de treinta expertos que hacen un seguimiento continuo de la economía y que en varios casos han participado en las decisiones de política económica. Creo que encontrarán que su lectura es útil y entretenida». Julio Velarde, presidente del Banco Central de Reserva del Perú Pese a que el desempeño macroeconómico y financiero de nuestras tres últimas décadas ha sido excepcionalmente favorable, lo que dio como resultado una clara mejora en índices de pobreza y de desigualdad, persisten deficiencias en términos de sostenibilidad y crecimiento, así como de desarrollo humano y calidad de vida. La bonanza no se tradujo en reformas efectivas para superar nuestra debilidad institucional y política. El Estado se mantiene atrofiado, con pobre capacidad para resolver problemas pendientes y extender los beneficios de la prosperidad a estratos sustanciales de la población. Economía peruana: ¿milagro o ficción? presenta una selección de artículos escritos por renombrados economistas y especialistas en políticas públicas. Originalmente publicados en el blog Foco Económico, analizan distintos aspectos de lo que podemos llamar el «modelo económico peruano». Esta colección es una referencia imprescindible para comprender nuestra realidad económica, su relación con el devenir político y social, y las políticas necesarias para superar el estancamiento actual.
