Infants, Toddlers, and Caregivers Janet Gonzalez-Mena,Dianne Widmeyer Eyer,2007

Infants, Toddlers, and Caregivers Janet Gonzalez-Mena,Dianne Widmeyer Eyer,2020-02 Respect for infant-toddler development, and mindful caregiving practices for this age group, serve as the cornerstones for this textbook. In 1980 when this textbook was first published, infants and toddlers were scarcely mentioned in early childhood education. The existing curriculum focused on preschool children-3-, 4-, and 5-year olds. Society, however, was changing, and more children were entering out-of-home care at a younger age, and preschool teachers were experiencing new challenges. Traditional preschool curriculum, with circle time and group activities, did not fit the needs of 2-year-olds (and younger!). The authors of this book recognized that more specific curriculum was needed, and worked together to address these new and challenging issues in early care and education. The major theme of this textbook-the idea of respectful, responsive, and reciprocal adult-infant-toddler interactions-has been the same with each edition. The philosophy of Magda Gerber and the theory of Emmi Pikler provide the textbook with a unique approach while outlining well-established practices designed to promote infant and toddler well-being. Magda Gerber, a Los Angeles infant expert, came from Hungary. Her friend and colleague, Dr. Emmi Pikler, a theorist and researcher, also from Hungary, had established group care for infants and toddlers after World War II--

Infants, Toddlers, and Caregivers Janet Gonzalez-Mena,Dianne Widmeyer Eyer,2001 This textbook provides an introduction to care and education of children in the first three years of life. The authors stress the importance that sensitive care and good program planning have on the identity formation of infants and toddlers.

ISE INFANTS TODDLERS & CAREGIVERS:CURRICULUM RELATIONSHIP Janet Gonzalez-Mena,Dianne Widmeyer Eyer,2020-01-06 The major theme of this textbook - the idea of respectful, responsive, and reciprocal adult-infant-toddler interactions has been consistent with each edition. The underlying framework for the textbook is founded in the Ten Principles which is initially discussed in Chapter 1. Respectful behaviors on the part of the caregivers are the basis of the Ten Principles. The textbook refers to these in every chapter, and a Principles in Action feature in each chapter uses a scenario to further explain individual principles. Respect is a key component of the curriculum that *Infants, Toddlers, and Caregivers* advocates. Curriculum has to do with respecting and responding to each child's needs in sensitive ways that promote attachment. Curriculum for infants and toddlers embraces everything that happens during the day. This textbook consistently

outlines well-established practices related to sensitive care and program planning that are designed to promote well-being and identity formation in infants and toddlers. The focus of *Infants, Toddlers, and Caregivers* is on action - putting theory into practice. Knowing about is different from knowing how to. The authors appreciate that even people with considerable understanding of early development may have trouble acting on that understanding unless they have also learned to apply theory. The caregiver role incorporates that of teach and education. Appreciating diversity, cultural and linguistic difference, and inclusion have grown in significance with each edition, and are reflected in positive, non-biased terminology throughout the textbook.

Infants, Toddlers, and Caregivers Janet Gonzalez-Mena, Dianne Widmeyer Eyer, 2003 This text is a practical introduction to the principles and practices of caregiving for infants and toddlers. It combines a child- and family-centered philosophy with problem-solving strategies and provides a thorough discussion of gender role stereotyping and multicultural issues in childcare.

The Caregiver's Companion Janet Gonzalez-Mena,Dianne Widmeyer Eyer,2004 A resource for infant and toddler care which provides both a theoretical foundation and practical information.

Caring for Infants and Toddlers in Groups John Ronald Lally,1995 This popular guide is designed to help caregivers, program directors, coordinators, administrators, trainers, licensors, families and leaders in the field of early care and education recognize the special knowledge and skills needed to offer a nurturing group care environment to very young children. Caring for Infants and Toddlers in Groups provides assistance in meeting the needs of each individual child; recognizing early developmental stages; achieving necessary health and safety standards; creating good relationships; developing training and mentoring programs; linking with other community-based service systems; providing continuity of care; and being sensitive to cultural and linguistic needs.

Power and Emotion in Infant-Toddler Day Care Robin Lynn Leavitt,1994-07-01 Robin Lynn Leavitt presents in a provocative ethnography the lived experiences of infants and toddlers in day care centers. This text speaks to researchers and instructors interested in infancy, early childhood socialization, child care, and interpretive research. Leavitt's original application of multiple theoretical perspectives—interpretive, interactionist, critical, feminist, and postmodern— yields powerful insights into the problematic emotional experiences and relations between infants and their caregivers. The day care center is described as an institution that imposes a temporal and spatial regime on the lives of infants and toddlers. Vivid descriptions illustrate how caregivers create problematic situations for the children as they exercise unyielding power in the rigid management and control of the daily routines and play of children. As Leavitt documents the experiences of our youngest children, she engages in a philosophical exploration of the meanings of emotionally responsive, empowering care in group settings. Her analysis points to the need to care for caregivers, and for caregiving to become a self-reflective activity.
