Muslim Theories of Dream Interpretation - An Analytical Study of Ibn-e-Sirin (R.A) Dr. M Saeed Ur Rehman, 2021-05-08
This research book comprises different aspects and theories of dream interpretations with specially focused at the theory that refers to imam Ibn e Siren (110 Hijri). He was expert of dream sciences and demonstrated basic rules of dream interpretations and interpreted different dreams with the reference of Quran and Hadith. His research work is so important and traditional source of Islamic psychology.

Dreaming in Christianity and Islam Kelly Bulkeley, Kate Adams, Patricia M. Davis, 2009 Throughout history to the present day, religion has ideologically fueled wars, conquests, and persecutions. Christianity and Islam, the world's largest and geopolitically powerful faiths, are often positioned as mortal enemies locked in an apocalyptic clash of civilizations. Rarely are similarities addressed. *Dreaming in Christianity and Islam*, the first book to explore dreaming in these religions through original essays, fills this void. The editors reach a plateau by focusing on how studying dreams reveals new aspects of social and political reality. International scholars document the impact of dreams on sacred texts, mystical experiences, therapeutic practices, and doctrinal controversies.

The Early Muslim Tradition of Dream Interpretation John C. Lamoreaux, 2002-05-02 Explores dream interpretation among the early Muslims, who saw dreams as a type of prophecy.

The Dream in Islam Iain R. Edgar, 2011-05-01 The war in the Middle East is marked by a lack of cultural knowledge on the part of the western forces, and this book deals with another, widely ignored element of Islam—the role of dreams in everyday life. The practice of using night dreams to make important life decisions can be traced to Middle Eastern dream traditions and practices that preceded the emergence of Islam. In this study, the author explores some key aspects of Islamic dream theory and interpretation as well as the role and significance of night dreams for contemporary Muslims. In his analysis of the Islamic debates surrounding the role of “true” dreams in historical and contemporary Islamic prophecy, the author specifically addresses the significance of Al-Qaeda and Taliban dream practices and ideology. Dreams of “heaven,” for example, are often instrumental in determining Jihadist suicidal action, and “heavenly” dreams are also evidenced within

other contemporary human conflicts such as Israel-Palestine and Kosovo-Serbia. By exploring patterns of dreams within this context, a cross-cultural, psychological, and experiential understanding of the role and significance of such contemporary critical political and personal imagery can be achieved.

Dreams and Visions in the World of Islam Elizabeth Sirriyeh, 2015-01-28 People in Western societies have long been interested in their dreams and what they mean. However, few non-Muslims in the West are likely to seek interpretation of those dreams to help them make life-changing decisions. In the Islamic world the situation is quite different. Dreaming and the import of visions are here of enormous significance, to the degree that many Muslims believe that in their dreams they are receiving divine guidance: for example, on whether or not to accept a marriage proposal, or a new job opportunity. In her authoritative new book, Elizabeth Sirriyeh offers the first concerted history of the rise of dream interpretation in Islamic culture, from medieval times to the present. Central to the book is the figure of the Prophet Muhammad - seen to represent for Muslims the perfect dreamer, visionary and interpreter of dreams. Less benignly, dreams have been exploited in the propaganda of Islamic militants in Afghanistan, and in apocalyptic visions relating to the 9/11 attacks. This timely volume gives an important, fascinating and overlooked subject the exploration it has long deserved.

DREAM INTERPRETATION (ATTRIBUTE to IMAM SADIQ (as)) Islamic Islamic Mobility, 2017-10-07 Imam Sadiq (pbuh) is a great academic personality which the human history has come to know. He has advanced this great colossal (amount) of constructive and effectual contributions, in the interest of service to humanity and the building of civilization. Such as, and indeed he has [contributed to], bettering off the Islamic intellect by means of what he propagated of the kinds of sciences full of fundamentals of life. And in addition to that, the brilliant intellectual treasures, and that which is considered to be the pillar of the academic revival to his era. So the Imam (pbuh) has left for us a collection of the visions transmitted from him regarding his interpretations of dreams. So that there is [a book] by Imam Sadiq (pbuh) of Dream Interpretations specifically by him, that is circulating among the people and to a nearby age. And the reality is that a book specific for this subject was not provided by the Imam (pbuh). Rather it was upon our gathering of visions ascribed to the Imam, we discovered a large collection from these visions in the book (Ta'ateer AlAnam) by Nablusi, and of which the author backing [the chain of narrations] is Imam Ja'afer AlSadiq is from a book ascribed to him called (Biltaqseem (By Distribution)). And the author cites in his book: (And I have accredited) concerning that upon the foremost books and the respected Sheikhs' views such as: Essentials by Daniel AlHakeem, and the book the Distribution by Ja'afer AlSadiq, and the book the Compilers by

Muhammed bin Seereen. And we cherish the reader when we place before you this book that we ask our Master, Praise and Glory to Him, to grant the good of His acceptance. And lastly our supplication is that all praise is due to Allah, Lord of the worlds.

Authority and Identity in Medieval Islamic Historiography Mimi Hanaoka, 2016-09-09 Intriguing dreams, improbable myths, fanciful genealogies, and suspect etymologies. These were all key elements of the historical texts composed by scholars and bureaucrats on the peripheries of Islamic empires between the tenth and fifteenth centuries. But how are historians to interpret such narratives? And what can these more literary histories tell us about the people who wrote them and the times in which they lived? In this book, Mimi Hanaoka offers an innovative, interdisciplinary method of approaching these sorts of local histories from the Persianate world. By paying attention to the purpose and intention behind a text's creation, her book highlights the preoccupation with authority to rule and legitimacy within disparate regional, provincial, ethnic, sectarian, ideological and professional communities. By reading these texts in such a way, Hanaoka transforms the literary patterns of these fantastic histories into rich sources of information about identity, rhetoric, authority, legitimacy, and centre-periphery relations.

Dreaming Across Boundaries Louise Marlow, 2008 This volume explores the context of theological speculations and political aspirations through the medium of dreams to present fascinating insights into the social history of the pre-modern Islamic world in all its cultural diversity. Wider cultural exchanges are discussed through concrete examples such as the Arabic version of the Aristotelian treatise *De divinatione per somnum*, and some of the current scholarly assumptions about dreams are challenged by personal reports that express individual personalities, self-awareness, and spiritual development.

Dreams and Visions in Islamic Societies Özgen Felek, Alexander D. Knysh, 2012-02-01 Dreams and visions have always been important in Islamic societies. Yet, their pervasive impact on Muslim communities and on the lives of individual Muslims remains largely unknown and rather surprising to Westerners. This book addresses this gap in understanding with a fascinating and diverse account, taking readers from premodern Islam to the present day. Dreams and visions are shown to

have been, and to be, significant in a range of social, educational, and cultural roles. The book includes a wealth of examples detailing the Sufi experience. Contributors use Arabic, Persian, Indian, Central Asian, and Ottoman sources and employ approaches grounded in history, sociology, psychology, anthropology, religious studies, and literary analysis. This is an illuminating work, showing how ordinary Muslims, Muslim notables, Sufis, legal scholars, and rulers have perceived both themselves and the world around them through the prism of dreams and visions.
