Animated Films James Clarke, 2004 Following the successful formula of previous books in the 'Virgin Film' series, James Clarke looks at the history of animation through close analysis of the genre's key films. Films covered include 'Snow White and the Seven Dwarfs', 'Toy Story', 'Monsters Inc.', and 'A Bug's Life'.

**Monsters, Inc.** Kiki Thorpe, 2001 Monsters Mike and Sulley are terrorized by a human child and discover an evil plot at Monsters Incorporated.

**The Animated Movie Guide** Jerry Beck, 2005 Includes: every animated feature released in the United States since 1926; reviews and background information for over 300 films; plot synopses, running times, 4-star ratings, consumer tips, and MPAA ratings.--Cover.--From source other than the Library of Congress.

**ReelViews** James Berardinelli, 2003 The popular film critic offers full-length reviews of his choices for the best one thousand movies from the 1990s to today.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

**Roger Ebert's Movie Yearbook 2004** Roger Ebert, 2003 Featuring every review Ebert wrote from January 2001 to mid-June 2003, this treasury also includes his essays, interviews, film festival reports, and In Memoriams, along with his famous star ratings.

**Salvation in Celluloid** Robert Pope, 2007-10 Much work in the field of theology and film lacks a really theological focus. This book suggests a methodology based on the recognition of the imagination as the fundamental category in producing and interpreting film. The argument is presented that the imagination holds theological significance when it is conceived of in certain ways. As a result, the book adopts the 'paradigmatic imagination' (an imagination which works within the paradigms of scripture) or 'theological imagination' (one grounded in theological forms), which is both noetic (it is the image-making faculty of the mind) and almost ontological (it is that which draws human beings into the future which they are able to construct or bring into being). Once the theological (paradigmatic) imagination has been identified and justified, its insights will be applied to 'Jesus films' and 'Christ figure films' asking whether or not they provide us with valid Christological understanding. Films with redemptive or salvific themes are discussed as is the popularity of mythical stories and animation. The final chapter will make the case that the engagement of the theological imagination with film is a method in practical theology.
