*PISA 2018 Results (Volume III) What School Life Means for Students' Lives* OECD, 2019-12-03 This is one of six volumes that present the results of the PISA 2018 survey, the seventh round of the triennial assessment. Volume III, What School Life Means for Students' Lives, focuses on the physical and emotional health of students, the role of teachers and parents in shaping the school climate, and the social life at school. The volume also examines indicators of student well-being, and how these are related to the school climate.

**PISA 2018 Results (Volume VI) Are Students Ready to Thrive in an Interconnected World?** OECD, 2020-10-22 The OECD Programme for International Student Assessment (PISA) examines what students know in reading, mathematics and science, and what they can do with what they know. Volume VI: Are Students Ready to Thrive in an Interconnected World? explores students' ability to examine issues of local, global and cultural significance; understand and appreciate the perspectives and worldviews of others; engage in open, appropriate and effective interactions across cultures; and take action for collective well-being and sustainable development.

**Validating Second Language Reading Examinations** Rachel Yi-fen Wu, 2014-09-25 Validating Second Language Reading Examinations describes the development of an empirical framework for test validation and comparison of reading tests at different proficiency levels through a critical evaluation of alignment with the Common European Framework of Reference (CEFR). It focuses on contextual parameters, cognitive processing operations and test results and identifies parameters for the description of different levels of reading proficiency examinations. The volume explores procedures for linking tests to the CEFR and proposes both qualitative and quantitative methods that complement the procedures recommended in the Council of Europe's Relating Language Examinations to the Common European Framework of Reference for Languages (CEFR): A Manual, piloted in 2003 and revised 2009. Key features of the book include: - a detailed review of the literature on CEFR alignment, vertical scaling, test specifications and test comparability - a comprehensive and coherent approach to the validation of reading tests - an accessible and systematic description of procedures for collecting validity evidence based on a sound theoretical framework - a case study comparing different testing systems targeting the same CEFR level--

*English Language Learning in the Digital Age* Mark Dressman, Ju Seong Lee, Laurent Perrot, 2023-01-24 Provides a thorough overview of digital learning methods and their practical application in the modern language classroom English Language Learning in the Digital Age is a comprehensive introduction to the theoretical background and real-world application of IDLE (Informal Digital Learning of English). Designed for teachers and future teachers preparing to teach English as a second or other language, this highly practical guide focuses on incorporating digital technology into curricula to draw upon the extracurricular exposures to English that many students experience outside of the classroom. With some creativity and care, teachers can find ways to bring these experiences with English into the classroom, ultimately improving student learning outcomes. Offering a specific focus on examples and case studies drawn from language education in the Middle East, Asia, and Europe, this text employs a three-part structure beginning with the theories behind autonomous learning and the importance of informal language learning for young adults. Part two demonstrates various methods for integrating games, social media, e-books, language software, mobile apps, and other digital resources into the classroom. The third section addresses the use of IDLE methods to bridge the gap between informal and formal uses of English, the advantages and disadvantages of IDLE in flipped classrooms and online teaching, and how IDLE strategies can enhance mandated curricula and better prepare students for national exams. The book concludes with a brief discussion of the future of language learning and the need to include digital technologies and learner-driven strategies in education policy. This unique text: Offers practical methods for bringing informal student learning into the classroom Presents a wide range of engaging digital learning activities that can complement traditional language courses and improve language acquisition Reviews mobile apps for the translation and practice of vocabulary, grammar, and other components of language learning Provides real-life examples of how teachers can develop lessons and curricula, such as watching and making vlogs and reading transcripts of podcasts and audiobooks Includes access to a companion website containing video interviews with English learners and teaching plans reflecting TESOL Technology Standards and CEFR Reference Level Descriptors for English English Language Learning in the Digital Age is an ideal textbook for upper-level undergraduate and graduate students in the fields of language education and language acquisition, as well as teachers and teachers-in-training who are preparing to teach English in countries where English is not the primary language.

PISA 2018 Results (Volume II) Where All Students Can Succeed OECD, 2019-12-03 This is one of six volumes that present the results of the PISA 2018 survey, the seventh round of the triennial assessment. Volume II, Where All Students Can Succeed, examines gender differences in student performance, and the links between students' socio-economic status and immigrant background, on the one hand, and student performance and well-being, on the other.

B1 PRELIMINARY READING TEST The B1 Preliminary Reading test is designed to assess the reading proficiency of candidates at a B1 level (intermediate). It comprises six distinct parts, each testing different aspects of reading comprehension in various contexts: Part 1 Candidates read five real-world notices, messages and other short texts to identify the main message. This part tests understanding of essential information in everyday texts. Part 2 Candidates match five descriptions of people to eight short texts on a particular topic. This part assesses detailed comprehension and the ability to scan for specific information. Part 3 Candidates read a longer text and answer five multiple-choice questions. This part tests detailed comprehension, inference, global meaning, and understanding of the writer's attitude and opinion. Part 4 Candidates read a text from which five sentences have been removed and must select the correct sentence for each gap. This part evaluates understanding of text structure, coherence and cohesion. Part 5 Candidates complete a multiple-choice cloze test by choosing the correct vocabulary items. This part tests lexical knowledge and collocation. Part 6 Candidates complete an open cloze test by supplying one word for each gap. This part assesses grammatical knowledge, including phrasal verbs and fixed phrases.
