

Sri Lankan Culture Dress

Emily Priscott

Costumes of Sri Lanka K. D. G. Wimalaratne, Dian Gomes, 2001 The scope of this book is the evolution of Sri Lankan costumes spanning from around 6th century B.C. with the first available records of the island's dress form, to the post-independence era. This broad time span begins with hints of a pre-Vijayan culture of costumes and textiles and ends in the post independence politics and its relationship to dress both in prescription and practice. Sculptures, graffiti, paintings, literature and photographs in the book provide an engrossing glimpse of the traditions of clothing in this multi-cultural island.

Sri Lanka in the Modern Age Nira Wickramasinghe, 2006-03-31 Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis; conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities. The entire history of the twentieth century has been tied to this one key issue. Sri Lanka in the Modern Age offers a fresh perspective based on new research. Above all, the author has written a history of the peoples of Sri Lanka rather than a history of the nation-state.

Fashioning the Self: Identity and Style in British Culture Emily Priscott, 2023-06-06 'Fashioning the Self: Identity and Style in British Culture' offers an eclectic approach to contemporary fashion studies. Taking a broad definition of British culture, this collection of essays explores the significance of style to issues such as colonialism, race, gender and class, embracing topics as diverse as eighteenth-century portraiture, literary dress culture and Edwardian working-class glamour. Examining the emblematic power of garments themselves and the context in which they are styled, this work interrogates the ways that personal style can itself decontextualize garments to radically reframe their meanings. Using an intentionally eclectic range of subjects from an interdisciplinary perspective, this collection builds on the work of theorists such as Aileen Ribeiro, Vika Martina Plock, Cheryl Buckley and Hilary Fawcett, to examine the social significance of personal style, while also highlighting the diversity of British culture itself.

Clothing in Sri Lanka Lasni Buddhibhashika Jayasooriya, 2020 Attitudes towards clothing in Sri Lanka differ from other countries. Clothing and half nakedness are inseparable ideas, as exposing body in clothing is rather common. In my study I have tried to find whether the half nakedness is a problem of people's attitudes or a problem of half nakedness itself. Here the main focus was Sri Lankan cultural/traditional dress osari (or saree) that has a high social acceptance and recognition in

which a considerable part of the body is exposed while Sri Lankans reject any other dresses which expose even a small part of the body. For my study I employed an experimental method. A questionnaire based on both osari and other apparels was used for both pre and post tests. A documentary which built up an argument challenging the contradictory nature of the Sri Lankans' perception on half nakedness was introduced to the study group as the stimulus. This randomized experimental study was carried out by a self-administrated questionnaire among 20 subjects from the University of Peradeniya. The results demonstrated a significant attitudinal change in the study group ($t = .04$, p

Media Culture in Transnational Asia Hyesu Park, 2020-09-17 Media Culture in Transnational Asia: Convergences and Divergences examines contemporary media use within Asia, where over half of the world's population resides. The book addresses media use and practices by looking at the transnational exchanges of ideas, narratives, images, techniques, and values and how they influence media consumption and production throughout Asia, including Sri Lanka, Bangladesh, South Korea, Singapore, Vietnam, Afghanistan, Iran and many others. The book's contributors are especially interested in investigating media and their intersections with narrative, medium, technologies, and culture through the lenses that are particularly Asian by turning to Asian sociopolitical and cultural milieus as the meaningful interpretive framework to understand media. This timely and cutting-edge research is essential reading for those interested in transnational and global media studies.

Citizenship in Transnational Perspective Jatinder Mann, 2023-09-19 This edited collection brings together leading and emerging international scholars who explore citizenship through the two overarching themes of Indigeneity and ethnicity. They approach the subject from a range of disciplinary perspectives: historical, legal, political, and sociological. Therefore, this book makes an important and unique contribution to the existing literature through its transnational, inter- and multidisciplinary perspectives. The collection includes scholars whose work on citizenship in settler societies moves beyond

the idea of inclusion (fitting into extant citizenship regimes) to innovative models of inclusivity (refitting existing models) to reflect the multiple identities of an increasingly post-national era, and to promote the recognition of Indigenous citizenships and rights that were suppressed as a formative condition of citizenship in these societies.

Buddha in Sri Lanka Swarna Wickremeratne, 2012-02-01 This book provides both an erudite and intimate look at how Buddhism is lived in Sri Lanka. While India is known as the birthplace of Buddhism, Sri Lanka is its other home; Buddhism extends back over twenty-five hundred years on the island and remains at the center of its spiritual traditions and culture. Throughout the book, author Swarna Wickremeratne incorporates a personal view, sharing stories of herself, her family, friends, and acquaintances as they lived Buddhism both during her Sri Lankan girlhood and during more recent times. This personal view makes the traditions come alive as Wickremeratne details Buddhist beliefs, customs, rituals and ceremonies, and folklore. She also provides a fascinating discussion of the Sangha, the institutional monkhood in Sri Lanka, including its history, codes of conduct, and evolution and resilience over time. Wickremeratne explores the recent attempts by many monks to reinvent themselves in a society characterized by secularization, globalization, and a tide of aggressive Christian evangelization.

A Sinhalese Village in Sri Lanka Victoria J. Baker, 1998 The most current and detailed case study of South Asia available, this book documents the ways in which the members of a remote agricultural village cope with the dangers that plague them by employing a complex system of ritual practices and beliefs in supernatural forces. The book also addresses topics commonly neglected in other case studies, such as formal education problems in remote areas, the independent and self-confident women of the developing world, and the trials of developmental work in these areas.

NorthStar Helen Sophia Solórzano, Jennifer Schmidt, 1998 Basic Level NorthStar is an innovative five-level, integrated-skills series for learners of English as a Second Language or English as a Foreign Language. The series is divided into two strands: listening/speaking and reading/writing. There are four books in each strand, taking students from Basic to Advanced. The two books at each level explore different aspects of the same contemporary themes such as the effect of food on mood, experimental punishments for juvenile offenders, the role of cars in modern life, privacy in the workplace, and alternative medicine. The parallel books in each strand are linked by grammar and vocabulary as well, providing the opportunity to recycle and reinforce the language while the content remains fresh and exciting.
