**The Culture Is I-God Book I & II** Divine39 Allah,2016-11-22 It requires only a small book to explain the truth of science, history, law, psychology, sociology, mathematics, etc. However, it requires a very large book to cover up the truth of science and/or history by using Mythology, Theology, Isms, Race, and Fiction. The Black men, women, and children continue to be economic and social slaves, because of a lack of knowledge of history and science the world over. The Great Pyramids of Gaza was built by Khufu a great Asiatic builder who sees a Black man of Nile and his family. The fallen sons and daughters of the Asiatic Nations need to learn to love instead of hate and to know of their higher self and lower self. This is the uniting of the tribes and families, for teaching and instructing all families of the planet earth, and in the universe. Upon The Nature and Significance of the Culture of the Asiatics, The Book Culture is I-God has for its primary object the construction of a map of the history of the world from an Asiatic Blackman's perspective.

**The Culture Is I-God I & II** Divine39 Allah,2016-12-04 The Five Percent Nation are the Gods & Earths a Nation created by Allah the Father in the years 1963 thru 1969 (Allah the Father left the NOI and in 63 the first borne are lifted up into the Knowledge of Self, by 1964 there are 500 young Five Percent Brothers). Born Justice: Peace God, Allah The Father, left Temple number 7 in 1963, First Born Prince and God Supreme say the same thing, Peace; He was teaching in the Temple in 1963 and left in June or July He was there for three an one half years 1960-1963. All men lie when they are afraid. Some tell many lies, some but a few. Some have only one great lie they tell so often that they almost come to believe it...though some small part of them will always know that it is a lie, and that will show up on their many faces.

**The Black Man's Place in South Africa** Peter Nielsen,1922

*The Fortney Encyclical Black History* Albert Fortney Jr.,2016-01-15 The Encyclical Black History has been created for the critical and lack of vital Afro-Centric Multi-Curriculum text in urban school systems and is a necessity for African Americans. This book was created with careful and serious attention to biographical names that identifies history, culture as well as biblical characters. The reason why of this encyclical history can be explained with the facts and proof/evidence of the following. The point that has socio-psychological implications at the unconscious as well as the conscious level is the great little white racist lie, seen long enough, becomes the truth; like, portraying a white Jesus Christ who was a black man. Dr. Alvin Poussaint, a Black psychiatrist associated with Harvard University and others have observed and explained the most

tragic part of all of this is that the African American has come to form his self image and self-concept on the basis of what white racists have laid down as a guide or prescribed. Therefore, black men and women learn quickly to hate themselves and each other more than their white oppressor. There is almost infinite evidence that racism has left almost irreparable scars on the psyche of Afro-Americans that burden with an unrelenting, painful anxiety that drives the psyche to reach out for a sense of identity and self-esteem. Poussaint and others say that black children, especially learn to hate themselves at very early ages. Studies reveal their preference for white dolls over black ones. One study reported that black children in their drawings tend to show blacks as small, incomplete people and whites as strong and powerful. To conclude, in western color symbolism white is positive and black negative. Many people might ask why the contributions of Africa should be included in American curriculum? Is because they bleach and still rob black history and culture with black pictured as white that lie, leaves us mentally-dead, angry, and without purpose, of where we are going! Human culture is the product of all humanity, not the possession of a single racial or ethnic group. Afro-centric Multicultural educations major aim is to close the gap between Western ideals of equality, justice and practices that contradict these ideas. Stereotype people of color and people who are poor have just about no opportunities to become free of perspectives that are monoculture, that devalue African culture victimize them mostly having an inability to fully, function effectively in society. Many of these problems could be miraculously remedied with astonishing results if explained of black scientific achievements, which occurred in black Africa. There are also white African Americans living in the U.S.A. besides black African Americans, should make the distinction. Carl Sandburg (1979) related a dialogue between a white American and an American Indian which illustrates the need for multicultural education: The white man drew a small circle in the sand and told the red man, This is what the Indian knows, and drawing a big circle around the small one, this is what is what the white man knows. The Indian then took the stick and swept an immensely big ring around both circles and said, this is where the white man and the red man knows nothing.

Evolution Education Around the Globe Hasan Deniz,Lisa A. Borgerding,2018-06-21 This edited book provides a global view on evolution education. It describes the state of evolution education in different countries that are representative of geographical regions around the globe such as Eastern Europe, Western Europe, North Africa, South Africa, North America, South America,Middle East, Far East, South East Asia, Australia, and New Zealand.Studies in evolution education literature can be divided into three main categories: (a) understanding the interrelationships among cognitive, affective, epistemological, and religious factors that are related to peoples' views about evolution, (b) designing, implementing, evaluating evolution education curriculum that reflects contemporary evolution understanding, and (c) reducing antievolutionary attitudes. This volume systematically summarizes the evolution education literature across these three

categories for each country or geographical region. The individual chapters thus include common elements that facilitate a cross-cultural meta-analysis. Written for a primarily academic audience, this book provides a much-needed common background for future evolution education research across the globe.
