**Handbook of the American Short Story** Erik Redling, Oliver Scheiding, 2022-01-19 The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics. This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media. Part I provides systematic overviews of significant contexts ranging from historical-political backgrounds, short story theories developed by writers, print and digital culture, to current theoretical approaches and canon formation. Part II consists of 35 paired readings of representative short stories by eminent authors, charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age. The handbook examines historically, methodologically, and theoretically the coming together of the enduring narrative practice of compression and concision in American literature. It offers fresh and original readings relevant to

studying the American short story and shows how the genre performs American culture.

**Reading Spiritualities** Dawn Llewellyn, 2016-04-01 The phenomenon of 'sacred text' has undergone radical deconstruction in recent times, reflecting how religion has broken out of its traditional definitions and practices, and how current literary theories have influenced texts inside the religious domain and beyond. *Reading Spiritualities* presents both commentary and vivid examples of this evolution, engaging with a variety of reading practices that work with traditional texts and those that extend the notion of 'text' itself. The contributors draw on a range of textual sites such as an interview, Caribbean literature, drama and jazz, women's writings, emerging church blogs, Neopagan websites, the reading practices of Buddhist nuns, empirical studies on the reading experiences of Gujarati, Christian and post-Christian women, Chicana short stories, the mosque, cinema, modern art and literature. These examples open up understandings of where and how 'sacred texts' are emerging and being reassessed within contemporary religious and spiritual contexts; and make room for readings where the spiritual resides not only in the textual, but in other unexpected places. *Reading Spiritualities* includes contributions from Graham Holderness, Ursula King, Michael N. Jagessar, David Jasper, Anthony G. Reddie, Michèle Roberts, and Heather Walton to reflect and encourage the interdisciplinary study of sacred text in the broad arena of the arts and social sciences. It offers a unique and well-focused 'snapshot' of the textual constructions and representations of the sacred within the contemporary religious climate - accessible to the general reader, as well as more specialist interests of students and researchers working in the crossover fields of religious, theological, cultural and literary studies.

**Female Mythologies in Contemporary Chicana Literature** Nadine Gebhardt, 2007-08 Thesis (M.A.) from the year 2005 in the subject American Studies - Literature, grade: 1,0, Ernst Moritz Arndt University of Greifswald, language: English, abstract: In Mexican-American/ Chicano culture, feminine archetypes from the Mexican tradition play an important role for woman's subjectivity. Traditionally, such archetypes epitomize Catholic-patriarchal constructions of womanhood. Idolized by the figures of the Virgin of Guadalupe, La Malinche, and La Llorona, the most prevailing representations of female sexuality and motherhood evolve around the passive virgin, the sinful seductress, and the traitorous mother. Along the lines of Chicana feminism, the traditional definitions of these feminine archetypes can be seen as promoting an image of woman that is detrimental to female subjectivity. Although there are three figures, these archetypes evoke a binary opposition that defines woman as either good woman or bad woman, virgin or whore. As such, they limit and circumscribe the Chicana's

development of subjectivity. But these cultural icons may also epitomize feminine power, and hence provide the Chicana with possible feminist role models to back up her emancipation. Chicana feminists have employed creative writing to counter the Catholic-patriarchal discourse on the Virgin of Guadalupe, Malinche, and La Llorona. As they explore these cultural archetypes in their novels, short stories, and poems, Chicana feminists attempt to reveal the mechanisms by which the original images of these mythic figures have been subverted, disempowered, and distorted. But most importantly, they seek to deconstruct the virgin/whore dichotomy by rewriting the mythic figures. Through a revision of existing myths, Chicana writers are able to create a feminist mythology that is rooted in cultural tradition but simultaneously serves as an act of resistance to the dominant discourse. This Master's thesis will explore the mythic figures of Guadalupe, Malinche, and La Llorona in all
