Patrick Vollmar

The Twilight of the Goddesses Madelyn Gutwirth, 1992 In this extraordinarily rich book, Madelyn Gutwirth examines over one hundred prints and paintings, dozens of texts, and the work of a great many cultural critics in order to consider how gender politics were played out during a highly volatile era. Finding evidence of a crisis in gender relations during the eighteenth century, she traces its evolution in the politics of rococo art, demographic trends, plans for the control of prostitution, maternal nursing and wet-nursing practices, folklore, the salon, and in the theater of Diderot and the polemics of Rousseau. Gutwirth shows how a hostile gender ideology consigned women to a solely mothering role before the political revolution began, and how women who struggled to participate in the nascent First French Republic found themselves hobbled by the representational practices of the revolutionaries, especially their use of allegory. The artificiality and anachronism of the Revolution's representation of women were ratified by the Napoleonic Code. Once depicted as erotic goddesses by the rococo, then as goddesses of liberty (Marianne), the dominant figuration of women around 1800 would become the dying waif. As modern republics began their struggle toward legitimacy, women's posture within them had been reduced, by representation, to feeble marginality. Gutwirth combines perspectives from literature, history, sociology, demography, psychology, and art history and criticism in her delineation of this crisis.

The Twilight of Democracy Patrick E. Kennon, 1995 In an explosive work that will disturb many and anger many others, a modern Machiavelli--a retired CIA analyst--argues, calmly and rationally, that democracy is an outdated and doomed form of government. Targeted political mailings.

Folktales of the Jews, V. 3 (Tales from Arab Lands) Dan Ben Amos, 2011-05-01 Thanks to these generous donors for making the publication of the books in this series possible: Lloyd E. Cotsen; The Maurice Amado Foundation; National Endowment for the Humanities; and the National Foundation for Jewish Culture Tales from Arab Lands presents tales from North Africa, Yemen, Lebanon, Syria, and Iraq in the latest volume of the most important collection of Jewish folktales ever published. This is the third book in the multi-volume series in the tradition of Louis Ginzberg's timeless classic, *Legends of the Jews*. The tales here and the others in this series have been selected from the Israel Folktale Archives (IFA), named in Honor of Dov Noy, at The University of Haifa, a treasure house of Jewish lore that has remained largely unavailable to the entire world until now. Since the creation of the State of Israel, the IFA has collected more than 20,000 tales from newly arrived immigrants, long-lost stories shared by their families from around the world. The tales come from the major ethno-linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs, especially rich in Jewish content and context. Each of the tales is accompanied by in-depth commentary that explains the tale's cultural, historical, and literary background and its similarity to other tales in the IFA collection, and extensive scholarly notes. There is also an introduction that describes the culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index, and a comprehensive bibliography. Until the establishment of the IFA, we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have remained largely unknown. Many of the communities no longer exist as cohesive societies in their representative lands; the Holocaust, migration, and changes in living styles have made the continuation of these tales impossible. This series is a monument to a rich but vanishing oral tradition. This series is a monument to a rich but vanishing oral tradition.

The Werewolf Filmography Bryan Senn,2017-02-06 From the horrific to the heroic, cinematic werewolves are metaphors for our savage nature, symbolizing the secret, bestial side of humanity that hides beneath our civilized veneer. Examining acknowledged classics like *The Wolf Man* (1941) and *The Howling* (1981), as well as overlooked gems like *Dog Soldiers* (2011), this comprehensive filmography covers the highs and lows of the genre. Information is provided on production, cast and filmmakers, along with critical discussion of the tropes and underlying themes that make the werewolf a terrifying but fascinating figure.

Eclipse Stephenie Meyer,2007-08-07 The steamy love triangle heats up in the third book of *The Twilight Saga*, as Bella must choose between her friendship with Jacob and her romance with Edward—a decision that could change the fate of vampires and werewolves forever. As Seattle is ravaged by a string of mysterious killings and a malicious vampire continues her quest for revenge, Bella once again finds herself surrounded by danger. In the midst of it all, she is forced to choose between her love for Edward and her friendship with Jacob—knowing that her decision has the potential to ignite the ageless struggle between vampire and werewolf. With her graduation quickly approaching, Bella has one more decision to make: life or death?
