Money in Islam Masudul A. Choudhury, 2005-10-09 This volume takes a unique and challenging look at how money has operated in Islamic society and at how Islamic theoretical frameworks have influenced perceptions of money. The author draws upon historical, data and policy analysis to present a comparative study of monetary theories, including recent treatment of money by Islamic economists. Discussion also covers the nature of joint venture, stock markets, banks and financial intermediaries, price stability and international trade. This work sheds pioneering light in this area, and will be of interest to academics, graduates and researchers internationally.

Islamic Concept of Crime and Justice: Political justice and crime N. Hanif, 1999

The Chancellor Guide to the Legal and Shari'a Aspects of Islamic Finance Humayon A. Dar, Umar F. Moghul, 2012-01-09 Unprecedented economic growth and wealth accumulation in predominately Muslim countries have prompted many financial institutions in the US and Europe to position their investment teams across the Middle East and Asia to be closer to the markets in which they invest, and to take advantage of asset-gathering opportunities. This growth has also encouraged an increasing number of western industrialised countries to adopt legislation that responds to the requirements of the Muslim investment community. To be effective in these markets it is essential that professionals have an understanding of how Shari'a legal principles are applied in the financial sector. Failure to do so exposes them and their clients to potential financial, legal and reputational pitfalls. The Chancellor Guide to the Legal and Shari'a Aspects of Islamic Finance is the first professional reference to focus specifically on the legal dimension of Islamic Finance. The guide brings together nineteen Islamic Finance legal practitioners and advisers to provide a comprehensive yet practical legal perspective on the subject. Each contributor draws on several years' hands-on experience in Islamic Finance product development and advice to leading financial institutions to provide a real-world, contemporary assessment of the key legal issues in Islamic Finance. The guide's hands-on approach and accessible style make it required reading for everyone with a professional interest in Islamic Finance, be they lawyers, accountants, regulators, bankers or investors. It is also a unique reference for academic institutions worldwide.

Inclusive Welfare Solikin M. Juhro, Ferry Syarifuddin, Ali Sakti, 2025-01-30 This open access book serves to spur further development of Islamic economic and financial concepts and practices, particularly in terms of Islamic social-public finance

and Islamic monetary policy support. The book has a number of objectives across different aspects. From an academic perspective, the book aims to foster frontier thinking and concepts that advance scientific ideas and teaching materials relating to the Islamic financial system, particularly the role of Islamic social-public finance and Islamic monetary economics. From a policy perspective, the book explores and develops discussions that support public policy innovation, thereby providing comprehensive understanding of policy theories and practices in the Islamic financial system. From a practical perspective, the book is expected to contribute by increasing knowledge and understanding concerning the application and scope of the Islamic economic system. This will confer various benefits to the readers.

Gulf Charities and Islamic Philanthropy in the 'Age of Terror' and Beyond Jonathan Benthall, Robert Lacey, 2014-12-31 Gulf Charities and Islamic Philanthropy in the Age of Terror and Beyond is the first book to be published on

the charities of Saudi Arabia and the Arabian Gulf, covering their work both domestic and international. From a diversity of viewpoints, the book addresses: the historical roots of Islamic philanthropy in religious traditions and geopolitical movements; the interactions of the Gulf charities with Western relief and development institutions - now under pressure owing to budgetary constraints; numerous case studies from the Middle East, Africa, and South Asia; the impact of violent extremism on the sector, with the legal repercussions that have followed - especially in the USA; the recent history of attempts to alleviate the obstacles faced by bona fide Islamic charities, whose absence from major conflict zones now leaves a vacuum for extremist groups to penetrate; the prospects for a less politicized Islamic charity sector when the so-called war on terror eventually loses its salience.
