Caricature and Realism in the Romantic Novel Olivia Ferguson, 2023-10-25 What was caricature to novelists in the Romantic period? Why does Jane Austen call Mr Dashwood's wife 'a strong caricature of himself'? Why does Mary Shelley describe the body of Frankenstein's creature as 'in proportion', but then 'distorted in its proportions' - and does caricature have anything to do with it? This book answers those questions, shifting our understanding of 'caricature' as a literary-critical term in the decades when 'the English novel' was first defined and canonised as a distinct literary entity. Novels incorporated caricature talk and anti-caricature rhetoric to tell readers what different realisms purported to show them. Recovering the period's concept of caricature, *Caricature and Realism in the Romantic Novel* sheds light on formal realism's self-reflexivity about the 'caricature' of artifice, exaggeration and imagination. Disseminating Shakespeare in the Nordic Countries Nely Keinänen, Per Sivefors, 2022-01-27 Charting the early dissemination of Shakespeare in the Nordic countries in the 19th century, this opens up an area of global Shakespeare studies that has received little attention to date. With case studies exploring the earliest translations of Hamlet into Danish; the first translation of Macbeth and the differing translations of Hamlet into Swedish; adaptations into Finnish; Kierkegaard's re-working of King Lear, and the reception of the African-American actor Ira Aldridge's performances in Stockholm as Othello and Shylock, it will appeal to all those interested in the reception of Shakespeare and its relationship to the political

and social conditions. The volume intervenes in the current discussion of global Shakespeare and more recent concepts like 'rhizome', which challenge the notion of an Anglocentric model of 'centre' versus 'periphery'. It offers a new assessment of these notions, revealing how the dissemination of Shakespeare is determined by a series of local and frequently interlocking centres and peripheries, such as the Finnish relation to Russia or the Norwegian relation with Sweden, rather than a matter of influence from the English Cultural Sphere.

The Stage and the School Harry H. Schanker, Katharine Anne Ommanney, 1997 Outlines the history of drama and aspects of dramatic interpretation and production.

Love and Dramatic Genre - Approaches to the Topic of Love in Three Shakespearean Plays Thomas Eger, 2007-08 Examination Thesis from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,3, Bielefeld University, 71 entries in the bibliography, language: English, abstract: Love is a central topic in Shakespeare's plays. Many of his couples have gained a status of immortality: Antony and Cleopatra, Romeo and Juliet, or Beatrice and Benedick are only a few examples. These lovers share one experience, which Lysander in A Midsummer Night's Dream sums up very clearly: The course of true love never did run smooth ... (1,1,134) This dilemma is the raw material I am interested in. I will take three Shakespearean plays with love as their central issue and examine the protagonists' courses of love in them. This involves the beginning, the obstacles in the way, the reactions to these obstacles and the final failure or success to

overcome them. The plays chosen are *Romeo and Juliet*, *All's Well that Ends Well*, and *The Taming of the Shrew*. In the First Folio edition the first one is classified as belonging to the literary form of tragedy, the latter two as comedies. This leads me to the second element in the title, which is dramatic genre. What Northrop Frye says about comedy is also valid for tragedy: If a play in a theatre is subtitled 'a comedy', information is conveyed to a potential audience about what kind of thing to expect, and this type of information has been intelligible since before the days of Aristophanes. One such expectation concerns a play's mood. Here lies a fundamental difference between tragedy and comedy. Generally speaking, the audience expects that a comedy creates a happy mood and a tragedy a sad one. However, I am not alone finding that *Romeo* is a rather happy play over long stretches, whereas *The Taming* and *All's Well* are anything but thoroughly happy pieces. In these three dramas Shakespeare only partly fulfils the expectations, which are evoked. Their generic structure does not generate

A Politics of the Scene Paul A. Kottman, 2008 Juxtaposing readings of three plays of William Shakespeare and two major treatises in political philosophy--Plato's *Republic* and Thomas Hobbes's *Leviathan*--Kottman contests the figural ground from which political philosophy emerges and suggests how a Shakespearean sense of the 'scene' might open up new avenues

for thinking about politics. A Politics of the Scene builds especially on the reflections of Hannah Arendt and offers a speculative approach to politics that abandons taxonomical and scientific ambitions in order to finally reckon with the world as a stage.
