Practical and entertaining, it tells the real stories of 2006, from the winner of American Idol to the Supreme Court nominations (including how different justices have voted), from baseball and football statistics to the founder of amazon.com's new private rocketship factory. In an age when information is plentiful but selection is rare, Schott's Almanac offers both the essential facts and the lucid, provocative analysis. Reinventing Cinema Chuck Tryon,2009 For over a century, movies have played an important role in our lives, entertaining us, often provoking conversation and debate. Now, with the rise of digital cinema, audiences often encounter movies outside the theater and even outside the home. Traditional distribution models are challenged by new media entrepreneurs and independent film makers, usergenerated video, film blogs, mashups, downloads, and other expanding networks. *Reinventing Cinema* examines film culture at the turn of this century, at the precise moment when digital media are altering our historical relationship with the movies. Spanning multiple disciplines, Chuck Tryon addresses the interaction between production, distribution, and reception of films, television, and other new and emerging media.
