World Geography Richard G Boehm,1995 Texas Edition textbook on World Geography.

The Trouble with Textbooks Gary A. Tobin,Dennis R. Ybarra,2008-07-31 School textbooks in Iran, Saudi Arabia, Egypt and elsewhere in the Arab and Muslim worlds are filled with anti-Western and anti-Israel propaganda. Most readers will be shocked to discover that history and geography textbooks widely used in America's elementary and secondary classrooms contain some of the very same inaccuracies about Jews, Judaism, and Israel. Did you know that there is no record of any important Jewish contribution to the sciences? (World Civilizations, Thomson Wadsworth). Or that Christianity was started by a young Palestinian named Jesus? (The World, Scott Foresman/Pearson). Supplemental materials and other classroom influences are even worse. The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel. The problems uncovered in this ground-breaking analysis are instructive, and illustrate the need for reform in the way textbooks are developed, written, marketed, and distributed. Substitute another area-how we teach American history, Western civilization, or comparative religion-and we have another, equally intriguing case study. The Trouble with Textbooks shows what can go terribly wrong in discussing religion, geography, culture, or history-and in this case-all of them. The Trouble with Textbooks tells a cautionary tale for all readers, whatever their background, of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life, instead disparage some groups and teach historical distortions. With millions of young people using these textbooks each year, the denigration of some should be a concern for all.

Education, Globalization and the Nation Andrew Peterson,Ian Davies,King Man Chong,Terrie Epstein,Carla L. Peck,Alistair Ross,Alan Sears,Maria Auxiliadora Moreira dos Santos Schmidt,Debbie Sonu,2016-01-26 'Globalization' and 'the Nation' provide significant contexts for examining past educational thinking and practice and to identify how education has

been influenced today. This book, written collaboratively, explores country case studies - Australia, Brazil, Canada, China, the UK and USA as well as discussing the transnational European Union.

Marking the "Invisible" Andrea M. Hawkman, Sarah B. Shear, 2020-04-01 Substantial research has been put forth calling for the field of social studies education to engage in work dealing with the influence of race and racism within education and society (Branch, 2003; Chandler, 2015; Chandler & Hawley, 2017; Husband, 2010; King & Chandler, 2016; Ladson-Billings, 2003; Ooka Pang, Rivera & Gillette, 1998). Previous contributions have examined the presence and influence of race/ism within the field of social studies teaching and research (e.g. Chandler, 2015, Chandler & Hawley, 2017; Ladson-Billings, 2003; Woyshner & Bohan, 2012). In order to challenge the presence of racism within social studies, research must attend to the control that whiteness and white supremacy maintain within the field. This edited volume builds from these previous works to take on whiteness and white supremacy directly in social studies education. In *Marking the "Invisible"*, editors assemble original contributions from scholars working to expose whiteness and disrupt white supremacy in the field of social studies education. We argue for an articulation of whiteness within the field of social studies education in pursuit of directly challenging its influences on teaching, learning, and research. Across 27 chapters, authors call out the strategies deployed by white supremacy and acknowledge the depths by which it is used to control, manipulate, confine, and define identities, communities, citizenships, and historical narratives. This edited volume promotes the reshaping of social studies education to: support the histories, experiences, and lives of Students and Teachers of Color, challenge settler colonialism and color-evasiveness, develop racial literacy, and promote justice-oriented teaching and learning. Praise for *Marking the "Invisible"* As the theorization of race and racism continues to gain traction in social studies education, this volume offers a much-needed foundational grounding for the field. From the foreword to the epilogue, *Marking the "Invisible"* foregrounds conversations of whiteness in notions of supremacy, dominance, and rage. The chapters offer an opportunity for social studies educators to position critical theories of race such as critical race theory, intersectionality, and settler colonialism at the forefront of critical examinations of whiteness. Any social studies educator-researcher concerned with the theorization or teaching of race should engage with this text in their work. Christopher L. Busey, University of Florida
