What Everyone Needs to Know about Islam John L. Esposito, 2011-07-13 Since the terrorist attacks of September 11th, there has been an overwhelming demand for information about Islam, and recent events - the war in Iraq, terrorist attacks both failed and successful, debates throughout Europe over Islamic dress, and many others - have raised new questions in the minds of policymakers and the general public. This newly updated edition of *What Everyone Needs to Know about Islam* is the best single source for clearly presented, objective information about these new developments, and for answers to questions about the origin and traditions of Islam.

The Homosexuality Debate in Malawi Mawerenga, Jones Hamburu, 2018-06-14 Homosexuality is a cross-cutting challenge to Malawian society with theological, socio-cultural, economic, legal, political, and human rights implications. This book argues that the solution to the homosexuality debate in Malawi does not lie in either the criminalization or decriminalization of homosexuality; neither does it lie in homophobia nor heterophobia. However, the solution to the homosexuality debate lies in achieving a harmonious co-existence of both heterosexuals and homosexuals by practicing mutual tolerance. The book concludes by suggesting various activities to be taken by: The Government of Malawi; Gay Rights Activists; Religious Leaders; Traditional Leaders; and Malawian Society to ensure the aforementioned tolerance and understanding is encouraged.

Islam in America Craig Considine, 2019-10-25 A valuable resource for readers interested in the role of Islam in contemporary U. S. politics and society, this first-of-its kind reference synthesizes Islamic teachings, the example of Prophet Muhammad, and the vision of the Founding Fathers. Islam is the most misunderstood and misrepresented religious tradition in the United States, depicted as an oppressive and violent political system and its followers as backward and un-American. The stereotypes about Islam and Muslims in the U.S. calls for a new sociological understanding that confronts the menacing bigotry and racism rising in the U.S. today. Through an overview essay, chronology, and roughly 50 alphabetically arranged entries, this reference explores the intersection of Islam, Muslims, and American national identity. The primary focus is contemporary issues and developments relating to Islam in the U.S., but the entries also incorporate a fuller picture of Islam in general and Muslims worldwide. Included are entries on history, race and ethnicity, interfaith commonalities, politics, discrimination and hate, and national identity. The entries cite works for further reading, and the book closes with an

annotated bibliography of the most important resources.

What Did They Say about Gays? Allan Gould, 1995 Finally, a serious book of what famous heterosexual men, women, religions, organisations, philosophers, poets, scholars, scientists, and many others wrote or said about homosexual men and homosexuality itself. A healthy gathering of thoughtful, generous writers, critics, and thinkers from Abigail van Buren to Roger Ebert to George Bernard Shaw and over 120 more.

Homosexuality in Islam Scott Siraj Al-Haq Kugle, 2010-01-01 Homosexuality is anathema to Islam – or so the majority of both believers and non-believers suppose. Throughout the Muslim world, it is met with hostility, where state punishments range from hefty fines to the death penalty. Likewise, numerous scholars and commentators maintain that the Qur'an and Hadith rule unambiguously against same-sex relations. This pioneering study argues that there is far more nuance to the matter than most believe. In its narrative of Lot, the Qur'an could be interpreted as condemning lust rather homosexuality. While some Hadith are fiercely critical of homosexuality, some are far more equivocal. This is the first book length treatment to offer a detailed analysis of how Islamic scripture, jurisprudence, and Hadith, can not only accommodate a sexually sensitive Islam, but actively endorse it.

Muslim Responses to HIV/AIDS, 2004

The Greenwood Encyclopedia of LGBT Issues Worldwide Chuck Stewart, 2010 This set has an ambitious scope with the goal of offering the most up-to-date international overview of key issues in the lives of lesbian, gay, bisexual, and transgender individuals. HIV/AIDS has been a major media focus, but this set fosters a broader understanding of the status of LGBT individuals in their society. More than 70 countries are represented. The clear, accessible prose is appropriate for high school student research on up. The material is especially needed in a cultural climate that increasingly supports and requires information about LGBT populations. The content is useful for a paper on a hot topic, health classes, discussion groups, and gay-straight alliance groups.--Google books viewed Oct. 15, 2020.

Religious Ethics in Africa Peter Kasenene,1998 Africa is a religiously plural society with interaction between people of different religions and diverse value systems. The author, Professor of Comparative Religion in Uganda, describes and compares the position of traditional African religion, Christianity, Islam and Baha'i Faith on selected moral issues relevant to Africa today. His central argument is that in order to maintain their identity, African people must rediscover their ethical and moral heritage. He also argues that the new African ethical and moral systems must take into account the ethics of Christianity, Islam and the Baha'i Faith without embracing the cultures of the societies where those religions originated.

To Have and to Hold Melanie Judge,Anthony Manion,Shaun De Waal,2008 Written by an impressive selection of academics, attorneys, researchers, and activists, these essays explore the national debate in South Africa on the topic and consequences of their Civil Union Act. Contributions critically examine the legislative and advocacy process of marriage, the institution of marriage itself, and the meanings attached to it for lesbian, gay, bisexual, transgender, and intersex people. The combination of historical documents, personal reflections, and academic and activist analyses of same-sex marriage makes this collection invaluable for understanding this historic journey and its legal, social, cultural and religious ramifications.

Queer Arvind Narrain,2004 *Queer Despised Sexuality, Law and Social Change* is an inaugural monograph based on the belief that the struggle for a better world for queer people has to be based not just on questioning the larger frameworks of legal injustice, state intolerance and societal indifference, but also questioning and challenging ignorance, misconceptions and hatred in our families, our schools and colleges and our places of work. This work will nourish vigorous Indian pursuit of human rights to be and to remain different.
