The Power Advantage Dr. Joe Currier, 2018-03-05 The POWER Advantage Passion. Ownership. Wellness. Excellence. Relationships. In The POWER Advantage, Dr. Joe Currier demonstrates that when leaders overturn stale, outdated, top-down business management conventions and instead pursue four foundational values required of modern global organizations—Passion, Ownership, Wellness, Relationships—they will succeed in building enthusiastic, healthy, and highly successful teams. The inevitable outcome of implementing these key strategies is Excellence—for the team members and for the organizations they represent. Gathering the knowledge accumulated over forty-five-years of professional dedication as a psychologist, management consultant, and college faculty member, Dr. Currier invites readers to partake in honest self-inventory, examining their vulnerabilities and failures as well as their skills and strengths, and then teaches them how to seek feedback from others in order to realize their optimal performance. The author draws on long-tested psychological understanding of individuals' needs as well as from successful strategies implemented by industry leaders, and he builds upon his own experiences as a Chief Learning Officer and from presenting workshops for organizations all over the world. By helping leaders recognize the power they can gain by sharing the lessons learned from their personal and professional

journeys, truly listening to their team members, and creating feedback-rich, fulfilling work environments, *The Power Advantage* provides concrete methodologies for those wishing to maximize their team's potential—and for anyone who wants to achieve his or her personal best.

The Octopus Organization Phil Le-Brun, Jana Werner, 2025-12-16 Drive lasting change with a new, nimbler organization focused on continuous change. Our organizations are stuck. We talk about agility but find ourselves bogged down in bureaucracy. We aspire to innovate but run into systems built to prevent mistakes, not spark breakthroughs. We need to learn and adapt, but we're operating with an outdated playbook built for efficiency and control. And our attempts to fix all this—by pouring trillions into huge, top-down transformations—make the problems worse. But there is a better way: Building an Octopus Organization. One of nature's most intelligent and curious creatures, the octopus is everything your organization needs to be: smart, endlessly adaptable, and highly resilient. Its eight tentacles work in concert, but each can also think for itself. This book shows how to achieve the same balance of cohesion and autonomy and to guide your organization toward a living, breathing system—one that learns, adapts, and thrives by tapping into the distributed intelligence of its people. Drawing on their experience at companies such as Amazon and McDonald's and work with hundreds of global companies, AWS executives Phil Le-Brun and Jana Werner show you how to break away from the broken model of transformation and embrace continuous change. They share thirty-six antipatterns—conditioned habits—that keep us stuck and, in their place, provide levers that create meaningful improvement in months, not years. *The Octopus Organization* is your guide to moving beyond rigid structures and nurturing the living, adaptable organization you aspire to create, and be a part of.

Why Great Leaders Ask Great Questions Steve Mostyn, 2025-08-28 Aspiring leaders are hungry to learn all that they can about how to be a more effective leader. And certainly there are tools and best practices young leaders should know and add to their toolkit. But - as Steve Mostyn, one of the world's leading innovators in executive leadership, has learned over the past decades of teaching this cohort - two equally useful activities for the aspiring leader are reflection and experimentation. In his new book *WHY GREAT LEADERS ASK GREAT QUESTIONS*, Mostyn has crafted an elegant collection of the seven provocative questions aspiring leaders should ask themselves in order to spur that reflection and experimentation. These are some of the most important questions Mostyn poses to each cohort of the Oxford Executive Leadership program's students, honed by the past answers and engagement of thousands of students. The book is simple in conception, profound in execution. In seven accessible chapters, with exercises, research, and examples, the reader will engage with these questions: How do I reflect? How do I spend my time? Where does my power come from? How do I grow my network? How do I make change happen around here? How do I manage my energy? How do I grow more leaders? Inspired in part by Mostyn's work on the Oxford Executive Leadership Programme - an accelerated international leadership development program with over 5,000 alumni around the world - and in part by his numerous workshop sessions where he challenges and supports leaders

through his unique questions, the premise of the book is well-tested with aspiring and practicing leaders and is proven to spark both reflection and growth. These seven questions are drawn from the author's deep experience with the needs of rising young executives. Readers will engage with provocative exercises, highly accessible overviews of applicable research, and examples from fellow mid-career executives.

Leadership Succession and Transition for Museums and Arts Organizations Kaywin Feldman, 2024-10-14 This book will help facilitate successful leadership transition in museums and arts organizations. It is commonly noted that the greatest number of airline accidents happen during takeoff and landing. The same is true for arts organizations; we are at our most vulnerable during times of transition and it is critical that staff and volunteer leadership succeed in this difficult phase. Surprisingly, staff and boards must invent the practice each time as there is currently no “how to” guide for leadership transition in the arts. The day that a CEO announces their resignation - whether of their own decision or not - is a milestone moment in an organization’s history. It is a time of high vulnerability for the institution due to the challenges of appointing an effective interim director and high staff, board, and community anxiety about the future. Search committees are formed and more often than not include patrons and community representatives who are key stakeholders but may lack experience in effective hiring. Once the new executive is appointed, it is critical for the board members and the new director to begin with an intentional and strategic onboarding plan. The book features three main sections, covering the period from departure announcement to the final farewell; the search and interview process; and onboarding and succession planning. It was written for the boards of arts organizations, search committees, and for staff leadership.
