Pacific Automobilmism Gijs Mom, 2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world, as the West's media-driven car culture has contrasted with existing local mobilities, from rickshaws in India and minibuses in Africa to cycling in China. In this expansive volume, historian Gijs Mom explores how contemporary mobility has been impacted by social, political, and economic forces on a global scale, as in light of local mobility cultures, the car as an 'adventure machine' seems to lose cultural influence in favor of the car's status character.

Exploring the Spiritual in Popular Music Georgina Gregory, Mike Dines, 2021-01-28 This book highlights how the diverse nature of spiritual practices are experienced and manifest through the medium of popular music. At first glance, chapters on Krishnacore, the Rave Church phenomenon and post-punk repertoire of Psychic TV may appear to have little in common; however, this book draws attention to some of the similarities of the nuances of spiritual expression that underpin the lived

experience of popular music. As an interdisciplinary volume, the extensive introduction unpacks and clarifies terminology relating to the study of religion and popular music. The cross-disciplinary approach of the book makes it accessible and appealing to scholars of religious studies, cultural studies, popular music studies and theology. Unlike existing collections dealing with popular music and religion that focus on a specific genre, this innovative book offers a range of music and case studies, with chapters written by international contributors.

When Loss Gets Personal Michelle M. Falter, Steven T. Bickmore, 2018-11-23 When Loss Gets Personal considers how secondary English language arts teachers and teacher educators can sensitively and thoughtfully teach pieces of literature in their classrooms in which death is a significant, if not central, aspect of the texts. Death is something that affects all people young and old, yet it is rarely discussed openly in classrooms despite its prevalence in texts read in ELA classrooms. Whether it is canonical or contemporary literature, middle grades or young adult literature, fiction, nonfiction, or graphic novels, literature provides a vehicle to have difficult but needed conversations about personal deaths such as cancer, accidents, suicide, etc. Each chapter in this book focuses on 1-2 texts and provides practical activities that ask students to engage with the loss through writing assignments, projects, activities, and discussion prompts in order to build empathy, understanding, and develop critically-minded and engaged students. When Loss Gets Personal will be of interest to English language arts teachers, teacher educators, librarians, and scholars who wish to explore with their students the complex emotions that revolve around discussing deaths that occur in literature.

The Language of Pop Culture Valentin Werner, 2018-01-17 This collection brings together contributions from both leading and emerging scholars in one comprehensive volume to showcase the richness of linguistic approaches to the study of pop culture and their potential to inform linguistic theory building and analytical frameworks. The book features examples from a dynamic range of pop culture registers, including lyrics, the language of fictional TV series, comics, and musical subcultures, as a means of both providing a rigorous and robust description of these forms through the lens of linguistic study but also in outlining methodological issues involved in applying linguistic approaches. The volume also explores the didactic potential of pop culture, looking at the implementation of pop culture traditions in language learning settings. This collection offers unique insights into the interface of linguistic study and the broader paradigm of pop culture scholarship, making this an ideal resource for graduate students and researchers in applied linguistics, English language, media studies, cultural studies, and discourse analysis.
