Sports Law in the Philippines Ignatius Michael D. Ingles, 2023-09-25 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Philippines deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policy makers access to sports law at this specific level. Lawyers representing parties with interests in Philippines will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law.

Chronology of the 1987 Philippine Constitution Maria Ela L. Atienza, 2019-11-04 This report summarizes the contextual background and processes of writing the 1987 Philippine Constitution, its contents and a preliminary mapping of its implementation, covering elections held under the Constitution, major laws enacted as mandated by the Constitution and critical judicial decisions of the Supreme Court interpreting provisions of the Constitution. The Chronology also covers impeachment cases under the Constitution, a timeline of the peace processes pursued from 1987-2018, and trend analysis of approval ratings of the officials and institutions created under the 1987 Constitution to measure citizens' perceptions of the constitutional order. Research and writing of the Chronology was led by the research team at the University of the Philippines Center for Integrated Development Studies, under its project with International IDEA to complete a performance

assessment of the 1987 Constitution. The Chronology is the first product of this collaboration and serves as the basis for the forthcoming performance assessment report.
