Eric Boudreaux

Blink Malcolm Gladwell, 2007-04-03 From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of blink: the election of Warren Harding; New Coke; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of thin-slicing--filtering the very few factors that matter from an overwhelming number of variables.

Blink Malcolm Gladwell, 2005 How do we think without thinking, seem to make choices in an instant--in the blink of an eye--that actually aren't as simple as they seem? Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? Drawing on cutting-edge neuroscience and psychology, the author reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of filtering the very few factors that matter from an overwhelming number of variables.

Blink Malcolm Gladwell, 2005 Intuition is not some magical and mysterious property that arises unbidden from the depths of our mind. It is a product of long hours and intelligent design, of meaningful work environments and particular rules and principles. For too long we have thought of intuition as a kind of black box at the very core of who we are and why we act the way we do. This book shows us how we can hone our instinctive ability to know in an instant, helping us to bring out the best in our thinking and become better decision-makers in our homes, offices and in everyday life. Just as he did with his revolutionary theory of the tipping point, Gladwell reveals how the power of blink' could fundamentally transform our relationships, the way we consume, create and communicate, how we run our businesses and even our societies. You'll never think about thinking in the same way again.

Quicklet on Blink by Malcolm Gladwell (CliffNotes-like Book Summary) Eric Boudreaux, 2011-11-08 Quicklets: Learn More. Read Less. Malcolm Gladwell is a staff writer for The New Yorker and author of a number of multiple bestsellers including The Tipping Point, Outliers and Blink. Gladwell was inspired to write Blink after three police officers detained him because he resembled a rapist. When Gladwell realized that he and the rapist only shared a similar haircut, he began to think about how much emphasis people put on their instant perceptions. Blink is Gladwell's venture into the world of rapid cognition. Through his research, Gladwell found that humans are strongly influenced by the rapid judgments they make on a daily basis. However, because these judgments are made in the blink of an eye, we have trouble understanding them. Gladwell argues that, when practiced and perfected, we have the ability to improve the accuracy of our snap judgments. In the end, better snap judgments can lead to a better world. Blink is a very popular book that has spent time as a #1 National Bestseller. While most feedback on the book has been positive, there have been a number of critics that claim Gladwell does not form one cohesive argument and that he relies on flimsy evidence. Yet these critics have not affected the book's popularity, as it has sold over 2 million copies.

Blink: Inteligencia intuitiva: ¿Por qué sabemos la verdad en dos segundos? / Blink: The Power of Thinking Without Thinking Malcolm Gladwell, 2019-10-22 En este libro revolucionario, el periodista canadiense Malcolm Gladwell nos explica cómo pensamos sin pensar, de dónde proceden las decisiones que parece que tomamos en dos segundos, pero que no son tan simples como aparentan. ¿Por qué algunas personas son brillantes a la hora de decidir y otras son torpes una y otra vez? ¿Por qué algunos siguen su instinto y triunfan, mientras que otros acaban siempre dando un paso en falso? ¿Cuál es el funcionamiento real del cerebro en el trabajo, en clase, en la cocina o en la cama? ¿Y por qué las mejores decisiones suelen ser las más difíciles de explicar? Gladwell nos presenta a un psicólogo que ha aprendido a predecir si un matrimonio puede durar con sólo observarles unos minutos; a un entrenador de tenis que sabe cuándo un jugador hará doble falta antes incluso de que la raqueta toque la bola; a un experto en antigüedades que reconoce una falsificación de un solo vistazo. Este libro revela que quienes son buenos tomando decisiones no son aquellos que procesan más información o que dedican más tiempo a deliberar, sino aquellos que han perfeccionado el arte de hilar fino, de extraer los pocos factores que realmente importan a partir de una cantidad desmesurada de variables. Por medio de la neurología y la psicología, y exhibiendo todo el esplendor del que este autor es capaz, *Blink: Inteligencia intuitiva* cambiará tu forma de ver las decisiones que tomas. Nunca más volverás a pensar en pensar de la misma manera. **ENGLISH DESCRIPTION** In his landmark bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us.
