Aforismos latinos y sistema penal Benji Espinoza Ramos,2023-12-05 En la hora actual, muchos abogados consideran que el estudio del latín en el derecho no suma ni resta, esto es, da igual aprenderlo, porque no supone contribución alguna en la profesión. Sin embargo, es una idea rotundamente equivocada. El latín sigue estando vigente en el mundo jurídico. Y esto lo digo escribiendo en voz alta contra la corriente que señala al latín como un óbice o dificultad para el trabajo de los operadores jurídicos, abogados, fiscales o jueces, motivo por el cual se les insta a escribir en castellano y dejar de emplear la lengua de Cicerón. La vigencia que tiene el latín en el derecho trasciende el tiempo, ya que se puede seguir invocando los apotegmas y aforismos latinos en caso de ser necesario, plasmándolos en los escritos o en las audiencias bajo el sistema acusatorio garantista que trae consigo el nuevo Código Procesal Penal (Decreto Legislativo N° 957). De hecho, ese es el propósito del libro que se intitula Aforismos Latinos y Sistema Penal, en razón de que reúne, a partir del abecedario, las expresiones de común uso en la órbita del sistema de justicia penal. Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES) Hans-Josef Niederehe,1994-10-27 Since the publication of the still very valuable Biblioteca histórica de la filología castellana by Cipriano Muñoz y Manzano, conde de la Viñaza, (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably. It is the purpose of the present bibliography to bring already available bibliographical information together with the more recent research findings, scattered in many places, books and articles, published during the past one hundred years. More importantly still, many years of work in the major libraries of Spain and other European countries have

gone into this new bibliography in order to offer an as exhaustive as possible description of all Spanish grammars and dictionaries, histories of the Spanish language as well studies devoted to particular facets of its evolution, from the early glosses in Latin and Arabic texts in the 10th century to the beginning of the more autonomous approach to vernacular studies in the Renaissance period — which is not only represented by the grammatical and lexicographical work of the great Spanish humanist Elio Antonio de Nebrija. *Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español* (BICRES) brings together, in chronological order, close to 1,000 titles. Access to the bibliographical information is facilitated by several detailed indexes, such as author index, short title index, place of production index, index of printers and publishers, and a location index of the books described.
