The Palgrave Handbook of Australian and New Zealand Criminology, Crime and Justice Antje Deckert, Rick

Sarre,2017-11-03 This handbook engages key debates in Australian and New Zealand criminology over the last 50 years. In six sections, containing 56 original chapters, leading researchers and practitioners investigate topics such as the history of criminology; crime and justice data; law reform; gangs; youth crime; violent, white collar and rural crime; cybercrime; terrorism; sentencing; Indigenous courts; child witnesses and children of prisoners; police complaints processes; gun laws; alcohol policies; and criminal profiling. Key sections highlight criminological theory and, crucially, Indigenous issues and perspectives on criminal justice. Contributors examine the implications of past and current trends in official data collection, crime policy, and academic investigation to build up an understanding of under-researched and emerging problem areas for future research. An authoritative and comprehensive text, this handbook constitutes a long-awaited and necessary resource for dedicated academics, public policy analysts, and university students.

Casebook of Traumatic Injury Prevention Richard Volpe,2019-12-30 This casebook profiles exceptional traumatic injury prevention programs from all over the globe. Its detailed description and analysis employ a multi-stage process of identifying, evaluating, and casing effective prevention practices. The case studies reflect how legislative and regulatory information impact prevention efforts and provide insight into how national centers for injury prevention and control inform prevention practices on countrywide levels. The authors work with outcome-based research criteria to select and develop their comprehensive and contextually aware profiles of the programs. All included case studies follow the BRIO approach (Background, Resources, Implementation, and Outcome) – a model designed to provide a consistent way of describing programs that have been evaluated and found to be exceptional practices. The scope of the Casebook ranges across: The

challenge of traumatic injury prevention Sports and recreation-related traumatic injury prevention Fall-related traumatic injury prevention Road traffic-related traumatic injury prevention Traumatic injury prevention within complex systems In its recognition of traumatic injury prevention across the lifespan as a critical and complex public health challenge, the Casebook of Traumatic Injury Prevention promises to be an influential and authoritative resource for professionals and students in public health, safety, injury prevention, medicine, psychology, sociology, nursing, and engineering. Government agencies and institutions such as the Centers for Disease Control and Prevention (CDC), public health departments, and safety associations also would find the Casebook relevant to their work.
