**Cuarta Transformación: significados, contexto y trazos de políticas** Javier Rosiles Salas, 2024-04-11 Una creciente literatura que examina el gobierno encabezado por el presidente Andrés Manuel López Obrador comienza a acumularse. Tanto su profundidad, calidad y perspectivas son muy variadas, así como las conclusiones que arroja. Cabe advertir que las aseveraciones de esta novel literatura no pueden considerarse como definitivas, pues se trata de una administración federal en marcha y los efectos y resultados de sus acciones todavía no puedan establecerse con precisión. De cualquier manera, es indispensable seguir desarrollando investigaciones que analicen el ejercicio de gobierno de una apuesta tan ambiciosa como lo es la llamada Cuarta Transformación. Este libro, justamente, se propone contribuir a la comprensión, examen y balance de un movimiento que se constituyó en gobierno a partir de 2018, el primero de izquierda a nivel nacional en la historia del país. Cinco autores se proponen en esta obra identificar y analizar ciertas tendencias en materia de políticas públicas, así como desentrañar el significado de esta nueva etapa en la historia del país. La novedad se encuentra en el abordaje histórico que se hace de la propuesta encabezada por el presidente López Obrador, el examen del contexto político en el que se desarrolla, así como la observación y una primera evaluación de tres aspectos que han sido un tanto relegados en los estudios sobre el actual sexenio: el feminismo, la administración pública y las políticas de corte cultural.
