Feminist Thought Rosemarie Tong, 1989

Feminist Theory Today Judith Evans, 1995-06-28 This stimulating text presents a concise and accessible introduction to feminist theory today. Covering all the major variants of feminist political thought, it offers a unique examination of the archive of modern feminist theory from the publication of *The Feminine Mystique* in 1963 to current postmodernist and legal feminist texts. It provides both an intellectual history and a political critique of contemporary feminism in the United States and in the United Kingdom. Judith Evans focuses on the divergence within, as well as between, feminist schools, and on protests from women marginalized by 'the movement' - including those who are lesbian and those who are black. *Feminist Theory Today* contends that the early feminist demand for radical equality has gone, contributing to its drastic undertheorization. While brilliantly reconceptualizing this concept, the author documents the changes in socialist feminism from its revolutionary origins to its current focus on modifying liberal democratic forms.

Governance Feminism Janet Halley, Prabha Kotiswaran, Rachel Rebouché, Hila Shamir, 2018-03-13 Describing and assessing feminist inroads into the state *Feminists walk the halls of power. Governance Feminism: An Introduction* shows how some feminists and feminist ideas—but by no means all—have entered into state and state-like power in recent years. Being a feminist can qualify you for a job in the United Nations, the World Bank, the International Criminal Court, the local prosecutor's office, or the child welfare bureaucracy. Feminists have built institutions and participate in governance. The authors argue that governance feminism is institutionally diverse and globally distributed. It emerges from grassroots activism as well as statutes and treaties, as crime control and as immanent bureaucracy. Conflicts among feminists—global North and South; left, center, and right—emerge as struggles over governance. This volume collects examples from the United States, Israel, India, and from transnational human rights law. Governance feminism poses new challenges for feminists: How shall we assess our successes and failures? What responsibility do we shoulder for the outcomes of our work? For the compromises and strange bedfellows we took on along the way? Can feminism foster a critique of its own successes? This volume offers a pathway to critical engagement with these pressing and significant questions.

Introducing Postfeminism Sophia Phoca, Rebecca Wright, 1999 In style typical of this series *Introducing Postfeminism* uses text and integrated illustration to trace the effect of French feminist theory on contemporary gender, politics and culture.

Naked Truths Ann O Koloski-Ostrow, Claire L Lyons, 2003-09-01 The articles in *Naked Truths* demonstrate the application of feminist theory to a diverse repertory of classical art: they offer topical and controversial readings on the material culture

of the ancient Mediterranean. This volume presents a timely, provocative and beautifully illustrated re-evaluation of how the issues of gender, identity and sexuality reveal 'naked truths' about fundamental human values and social realities, through the compelling symbolism of the body.

Anarchafeminism Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn? How can we create a feminism that doesn't turn into yet another tool for oppression? It has become commonplace to argue that, in order to fight the subjugation of women, we have to unpack the ways different forms of oppression intersect with one another: class, race, gender, sexuality, disability, and ecology, to name only a few. By arguing that there is no single factor, or arche, explaining the oppression of women, Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims: that there is something specific to the oppression of women, and that, in order to fight that, we need to

untangle all other forms of oppression and the anthropocentrism they inhabit. Anarchism needs feminism to address the continued subordination of all femina, but feminism needs anarchism if it does not want to become the privilege of a few. Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet. In this new revolutionary vision, feminism does not mean the liberation of the lucky few, but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination. Either all or none of us will be free.
