Moats : The Competitive Advantages of Buffett and Munger Businesses Bud Labitan,2012-01-05 Labitan examines the competitive advantages of businesses that Warren Buffett and Charlie Munger bought for Berkshire Hathaway Inc. The title of the book is based on the concept that businesses need a 'moat' to protect their returns on invested capital. The businesses are presented alphabetically, from Acme Brick Company to XTRA Corporation.

A Fistful of Valuations, Second Edition Bud Labitan,2012-07-12 This second edition is a look back at the 2 year results. A Fistful Of Valuations offers 5 sample intrinsic value per share business valuations in the style that Warren Buffett and Charlie Munger may use. In each case the author tried to simulate an approach that they would take to valuing a business, based on what they have written and talked about. All of the growth assumptions used are the author's own. The valuation cases are estimations written in a style that emphasizes a focus on free cash flow and the number of shares outstanding. Readers are encouraged to think about the business' competitive position. In reality, these businesses may outperform or underperform the author's projections.

Quick Guide to the Four Investing Filters of Warren Buffett and Charlie Munger Bud Labitan,2019-01-24 This book is a quick guide to understanding the four investing filters of Warren Buffett and Charlie Munger. It is a shorter version of his previous book and is designed to improve your investment thinking. How do you set a price for your stock purchases? In Chapter 4, the author estimates an intrinsic value (of Apple stock). First, start by trying to understand the qualities of a first-class business. The four filters will help you optimize your decision making. Warren Buffett said it best: An investor cannot obtain superior profits from stocks by simply committing to a specific investment category or style. He or she can earn them only by carefully evaluating facts and continuously exercising discipline.

Price to Value - Large Print Edition Bud Labitan,2010-03-22

A Fistful of Valuations in the style of Warren Buffett & Charlie Munger (Third Edition, 2015) Bud Labitan,2015-10-20 This book offers 5 sample intrinsic value per share business valuation estimations that were first performed in 2010. Done in a style that Warren Buffett and Charlie Munger may use, these valuations are based on free cash flows each business produced. In each case presented, the author, Bud Labitan, simulated an approach that Buffett and Munger might take to

valuing a business, based on what they have written and talked about. However, all of the growth assumptions used are Labitan's own. No consultation or endorsement was sought with Mr. Buffett or Mr. Munger. How is this portfolio of five businesses doing after five years? If the reader had invested an equal amount of money in all five businesses in 2010, the average annual return so far would be 42%.

Sports & Stocks Bud Labitan, 2017-08-08 Labitan describes ideas about investing in the stock of a winning business. By talking about investments using sports examples and terminology, he aims to stimulate readers' interest and help them execute a game plan that they will be able to understand and apply.

The Four Filters Invention of Warren Buffett and Charlie Munger Bud Labitan, 2009-08-01 The Four Filters Invention of Warren Buffett and Charlie Munger examines each of the steps that Buffett and Munger perform in framing and making an investment decision. This book is a focused look into this amazing innovation within Behavioral Finance. The genius of Buffett and Munger's parsimonious four filters process was to capture all the important stakeholders in a multi-variable decision forming process.
